OUT OF THE PAST.

o light things long since discarded, you will know the sensation and thrills of feeling as you have stood face to face with the past. What wheels that have found their places in honored positions in

Thus it may be the things that have been tried in making business, might, A few days ago one said, who lives down the valley, "Last WHERE IS THE year we used to get up a load and go to Andover to hear the band; now we go the other way." All this, or lack of this, makes business less, and their not coming this way detracts from the business of our village. Why not again get the band out, have the

usual Saturday night attractions, keep the people coming this way. It wil make business and perhaps keep some of our people at home to spend money , where temptation to go astray is not as strong as it may be elsewhere. Then there is the hose company. Who is interested? At the last fire , there was not enough men who are members in town to man the hose, and

non-members had to do the work. Is the organization dead, THE HOSE, or is it only sleeping? There is certainly material enough, to man and strengthen the present body to have an organization, "the pride of the village." Like as not, if there is no one to call, some time, when needed, the hose will be found rotten, half of a large proportion of the products of a and lot to F. M. Lee. Common Sense Shoe Talk.

For over four years we have sold LINCOLN SHOES. Every shoe made by the Lincoln Shoe Company is absolutely guaranteed. And this with a guarantee that means what it says. During that time these shoes have been tested by hundreds of people and they have not been found wanting.

The Lincoln \$2.00 shoe for women possess all the style found in any high grade shoe, and will outwear any shoe at the same price we have ever seen. We have sold more pairs of these shoes than of any shoe we have ever carried in stock. If you have been one of the fortunate wearers of this shoe this "shoe talk" is unnecessary. But if you have never worn Lincoln shoes, we heartily recommend them, and one trial will convince you that there is no better shoe at the price to be found.

Lincoln School Shoe.

They are honestly made. All solid throughout. Made to stand the kind of hard service they usually get. A trial pair will convince you that they are money savers.

For the little people we have the soft kin moccasins at 15c, and a handsome assortment of infant shoes in patent leather and colors at 25c.

No shoe maker has yet succeeded in producing for the same money a shoe to equal Queen Quality. There have been immitations as there is of everything good and worthy. But no successful immitation. Queen Quality possesses an infinite amount of comfort, is a shoe built on the most graceful contours, is moddled on scientific lines, and above all is thoroughly up-to-date. Makers of Queen Quality shoes know how to put grace and beauty into shoes to such a degree that they've come to be recognized as the originators of shoe fashions.

Men's Wear.

Another lot of the new fall styles in the "On Top" shoe has just arrived. This shoe has made many friends in Andover. We have a good assortment of the different styles in Vici, Box Calf, Velour, Patent Leather, Enamel, etc., etc. On Top shoes cost \$3.50 and every pair is guaranteed to possess at least three dollars and fifty cents worth of wear.

N. Fisher's "Berwick" at \$2.50 is strictly up-to-date and a good wearer. Compare it with other makes at the same price.
