When she finally sat up on the the clouds in the heavens partly shut revolver. I peered through the curit from view. It cast wavering, van. | tains to determine what it meant." An right, I excused myself from further (ighing shadows upon the calm earth I did so there was another click, this expressions of gratitude by pretending | which were exceedingly aggravating | time lower and less distinct. This was to go back to look after her horse. I They were so deceptive in appearance caused by the pressing of an electric never was a kind to receive thanks that I felt my task would be doubly button. The next mement the whole house was brilliantly lighted I stepped back into the alcove with My master left the house at the trembling heart. The inmates of the usual time and proceeded to walk lelhouse had been aroused, and my massurely toward the doctor's. I followed him at some distance, not making any special effort to keep him in view. I Through the filmy curtains I caught a knew that he was not anticipating any | gilmpse of a dark shadow flash

stairs. I knew that it was my master

and that he was making a bold dash I hurried a little toward the end of At almost the same moment I heard the walk to make sure that he entered obey, for the next moment two pistol self the best way I could for several shots rang through the house, followe by the loud shuffling of feet and the

The sa Electric Oil. At any drug store.

of New York,

s the strongest Insurance Company in this or any other country.

Its assets over liabilities are greater by many millions of dollars than any other company.

Last year it paid its policy-holders \$3,742,519.57 in dividends alone, which is more than any other company paid. During the last five years it paid policy-holders /\$15,-682,610.99 in dividends alone, which is more than any other company paid.

During the last ten years it paid policy-holders \$26,056,-581.99 in dividends, which is more than any other company

It now has for the security and profit of policy-holders over \$72,000,000 of surplus, which is many millions of dollars more than has the next strongest company. It has over a billion dollars of insurance in force and

over \$331,000,000 of assets. It has twice as much insurance in force as has any other company of same age, (43 years).

Last year it wrote nearly as much business in New York state as any other two companies-together.

What a man wishes to khow about a life company is exactly what he would want to know about a bank, or any other business institution in which he might think of in-

1st. What is its financial strength? 2d. What is its profit earning and paying ability as shown by its past history?

. What is the outlook for future dividends as indicated by its accumulated surplus and other considerations? 4th. Is it economically managed? Buy a policy in the Equitable Life, the strongest and

safest insurance organization in the world. It costs no more than any other, and poor insurance is ' dear at any price. For further particulars apply to
