COMPOUND INTEREST

The trouble with most advertisers is that they expect immediate returns of large proportions. One prominent advertiser illustrates the principle of advertising in this way:

Whe money expended for advertising is the same as if placed at interest. The profits from the advertising are virtually the interest on

the investment. "The sums spent for advertising " are properly chargeable to cap-H ing good will is something that has value, which, if the adver- I mind. tising has been properly done, can usually be sold for the face . value of the investment. "The rate of interest is deter-

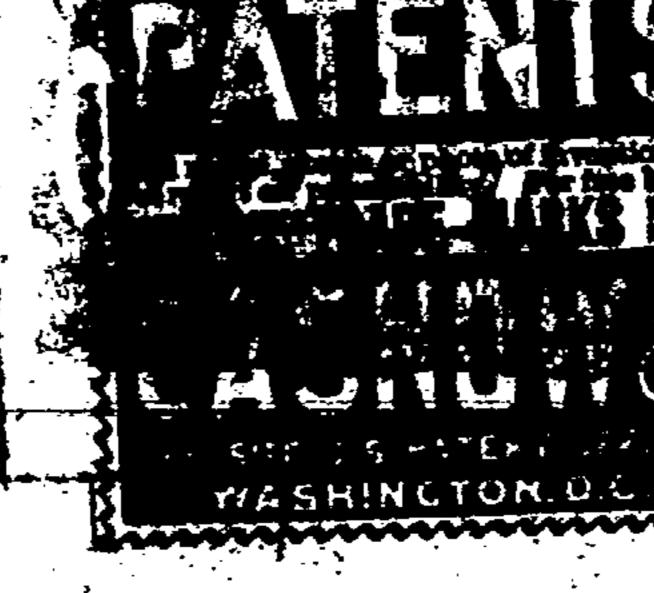

mined by the skill with which the investment is made. "Just as the quickest way to the quickest way to realize resuits from advertising is to compound the returns."-Advertising

Experience. Advertisers get good returns on the amount invested in our columns. We reach the

PERMANENT SITUATIONS. Cash paid weekly for services either on salery . and expenses paid, or commission, to take orders for our Garden Seeds; also Fruits and Flewers.
