At present among the many alterna-• tives proposed, practicable and impracticable, there seem to be two that are I receiving chief consideration. One is ship of the Olean Herald. to deepen the present canal, with some a animportant modifications of the rosses. I so that it may be suitable for thousand ton barges. The other is to change the treatment for rheumatism. route by utilizing Lake Ontario for 1. miles and Lake Oneida for 131/2 miles following the present cancil only from . Buffalo to Lockport and from Color . to Waterford. The latter plan, Which is favored by State Engineer Bond, Las certain unquestionable advantages. is shorter, it will require less mainteseven locks, and it will be considerably fornia. Cheaper to build. These purely mechanical merits may possibly outweigh t certain of its disadvantages, as, for instance, the fact that the open waterfor the inland route. The question, however, cannot be decided on its merits merely as a mechanical scheme.
