LEADING HARDWARE! MERCHANT, ANDOVER

It is poor policy to go about promiscuously telling people about one's bus iness; but we wish to declare this much: That our October Cloak and suit business was far the largest of any one month the firm ever had. The reasons are not hard to arrive at: Twenty one years experience enables us to understand the needs of our customers and gives us the ability to provide for them in an intelligent way. We carry an enormous stock, and people will go where they can get the assortment. We do not guarantee a cloak to be all wool when it is not. We make right any thing that is wrong. As to prices, our

profits are derived not from a large margin on a few gar-Thents, but from small margins on a large volume of busiluess. Our buyer, Mr. Haskins, is again in New York anticipating our needs in the above line.
