The publisher of the Andores Sensis not every tax payer. The advocate responsible for any statement made by an ad home trade. Home rule and home THE PUBLISHER.

Industrial The advent of manu Possibilities. facturing industries i - our little village causes the thinker to cast a look into the future and wonder what the possibilities are. Often it is the small things that make for the growth and prosperity of the comuse its columns to advertise their . The collar industry has wares. The village paper is a part of \$9,000,000 invested in the city of the home trade. The merchant who the beginnings were such withdraws his advertisement from the Carriel's that no thought was given of how village paper injures just so much! great the result might be. Every per- home trade. No home paper cares for son who wears the comfortable, de- toreign advertisements but newspaper! tachable collar is indebted to the in vention of the blacksmith's wife who, limit your home paper is to support! 75 years ago, "set up a thinker" and] evolved the separate collar. It is true it was not much like the collar of to day but was fied around the neck with -tape strings. However, from that idea was made the patterns for all the collars of different styles since made. So it may be. Who can tell that out , of the advent of the mauufacturers a judge. Strange as it may seem! some genius with a mind for mechanics, with ideas, may evolve something that, easily manufactured, at little cost, may add much to the industries of the village and give us a world wide name. It certainly is among

the possibilities. ***** * * The fist of The demand for dwell the Matter, ings by prospective they have never been before, and the many who might come will not be britality to his trail little wife, the opponents to the bill cause of the difficulty in securing Adermin's face reddened with anger, ingreery thyme; houses and the excessive rents charged. Finally he jumped from the bench, who might profit in renting their dwell. Told the attendants to lock the doors So the gist of the notiter is that many, ! ing or have profit from the increased value of their village property, are putting, in their greed, barriers to prevent, not only their own enrichment, but also that which hinders the further progress of the village. In all probability during the coming spring way that was a revelation to him. and summer months a number of new houses will be erected and those too! will help increase land values. word of warning is that if continued prosperity and increase of value is to be, those selling or renting should have a care that abnormal prices are not asked. A fair value no one ob jects to giving, but because one has all place to rest or a lot to sell to expect

Evidences of the progress and standard size for Hose couplings salary. value of the new industries are seen in should be arranged for. What the strangers on the streets and the in- Andover needed help? Would the business among the mer- hose couplings of other villages fit our
