STANDARD PATTERNS.

Hornellsville, N. y.

The young ladies who are to graduate this year are beginning to be exercised over the part they are to have in the Commencement program, and not only this, but what they are to wear on that occasion, is a matter not a little perplexing to themselves and their elders. We are glad to offer our services in helping to solve the latter problem. In the selection of a graduating dress the matter of serviceability as well as beauty should be taken into account. Our young lady may want this dress to help make up her collection of heirlooms in the years to come, and in view of this the material must be of a deracter that will undergo the ordeal of the wash tub and iorning board, reconstruction etc. It costs no more to put together a nice dress than one that is flimsy and cheap.

The fabrics we show you for this purpose are all such as we can heartily rescommed and concerning which, be glad to fufill every printed and verbal promise. Would be glad to have you see this collection, but if you are too far away for this, your commands by ail will be promptly honored.
