THE COMING RACES.

A Great Meeting Looked for at Maple City Park Track—Entries Coming in.

There is every prospect that the meeting of the Central New York Circuit to be held in this city beginning July 4th will be the greatest racing meeting ever held in this vicinity. Secretary Theodore H. Coleman and Local Secretary C. H. Armsted as well as other officers of the association, are busy with the preparations for the great week's races and are confident that there will be a large and superior gathering of trotters and pacers here for the several events on the program.

The number of entries already received is an assurance that the classes will all be well filled and that there will be some hot racing here July 4, 5, 6 and 7. The stables and track are being put into the best condition, and the new judges' stand is nearly completed. All of the arrangements will be of the best for the care of the horses and horsemen as well as for the pleasure and accommodation of the spectators of the four days races.

A. R. Miss Oakes received first prize of seven dollars and Miss Henry second prize of five dollars.

Miss Rachael Updyke as teacher in that district closed a very successful term of school last Friday.

A NEW HOME.

A Former Andover Man, E. B. Dean—What a Scranton Paper Has to Say.

That distinguished looking gentleman coming this way is Edward B. Dean. By the way have you seen Mr. Dean's new home yet, corner of Electric street and Washington avenue in Green Ridge? No. That's something your missing. When you have time call up and observe. Mr. Dean is a most pleasant gentleman and I'm sure he'd be delighted to entertain you. You haven't time this week? Listen then, and I'll briefly tell you of his palace. You know Mr. Dean formerly lived in Hackensack, N. J. He came here about two years ago and married Miss Jennie Howell of West Scranton. Then he boarded at the Jermyn, but hotel life, you know, did not agree with him, so he purchased one of the prettiest homes in Green Ridge. It is situated on a strip of land about twenty feet from the level of the road, and surrounded by a most magnificent fine lawn. A large driveway which encircles his home may be observed next. Was I in his home? Indeed I enjoyed all the privileges of a guest, and the large airy rooms so beautifully furnished made me feel like asking the owner for a permanent resting place. Everything within the home is new and pretty and the little boy, Edward jr., seems to be the master of all.

To Preach at Independence.

Rev. A. G. Crowfoot has accepted the call of the Independence Seventh-day Baptist church, to become its pastor. Mr. Crowfoot is a graduate of Alfred University and is well and favorably known in this section. He is now located at New Auburn, Minn.

Van Fleet—Warner.

Tuesday evening, June 14, at ten o'clock, Rev. J. S. Miller of the M. E. church, in this city, pronounced the words that united for life in the holy bonds of matrimony, Miss Bertha Belle Van Fleet and Mr. Samuel H. Warner, both of this city. The ceremony was performed at the residence of Mr. and Mrs. Lewis Levenson.

The bride has been a resident of this city but a short time, but has made several warm friends during that time. She is an accomplished musician on the violin and piano, and is admired for her lady-like ways.

The groom is the efficient station agent of the Great Northern Railroad Company. He is a man of good character and splendid business qualifications. Their many friends join in wishing them a long and prosperous wedded life. Mr. and Mrs. Warner are at home at the residence of Mr. and Mrs. Levenson.—The Leeds News, Leeds, North Dakota.

FOR PUBLIC GOOD

The Andover Free Library Need Funds.

SHALL WE LOSE OUR LIBRARY?

An Institution That Should be Maintained by all the People Rather Than a Few.

One of the enterprises which should be sustained and one for which no other could give greater returns is a public library.—A public library is an institution for incalculable good in any community, and rightly cared for with a judicious selection of books (which we are glad to note is so admirably done in the Andover Free Library) it becomes next to the public school an important factor in the creating and maintaining a high standard of educational ability. Heretofore the library has been cared for by the giving of time by public spirited men and women and while these have given, the larger portion have had all the benefits. Most towns have an annual appropriation made for the benefit of such institutions. Such appropriation permits each one to have a part in the maintaining of that which is for the public good. The Andover Library has been handicapped and been compelled to resort to all sort of expedients to raise funds to keep the readers supplied with news and readable books. Would it not be well in the face of the fact to have a town appropriation made of say \$250 annually and that amount be appropriated for the library fund. Surely no other work has so high a right to make such a demand. Thousands of dollars have been appropriated in years gone by for objects less worthy of the amount than the library. The library is for the public good and an intelligent, literature-loving public will not object to the appropriating of funds annually for that which is without question an important factor in elevating the public intellectually and morally and hence in every sense of the term is for the public good.

The Excelsior Express.

Joseph White of New York; is the successful party in first naming the Erie-Big Four World's Fair Train, and has been paid the \$100.00 in gold for the name, "The Excelsior Express." There were a number of other parties suggesting the name adopted, but Mr. White was the first. There were over 15,000 names proposed for this train and many of them very appropriate, but "The Excelsior Express" has been selected as fulfilling all the requirements of the name best suited for the train.

ELBRIDGE WITTER HURT.

Wagon Tips Over and Frightens Horses—Fell Between the Horses and Wagon and Dragged Long Distance.

Too much left on the forward part of a spring wagon made so the front wheels lurched under the box in turning caused the front wheel of C. L. Earley's spring wagon to catch on the reach as Elbridge Witter, who was driving the rig, was turning the horses around to leave Brown's Mill Saturday. As the wheel became tightened against the reach of the wagon the front end of the wagon tipped completely over toward the horses, frightening them. The seat on the wagon was high back and sides. Mr. Earley who was also on the seat jumped to the ground, but Mr. Witter could not because of the high back seat and was thrown between the overturned wagon and horses. The frightened animals ran toward Main street dragging Mr. Witter several rods in this precarious position before he could extricate himself. Help came to his assistance immediately. He was taken to his home on Main street and a physician called who found that aside from a severe shaking up and external bruises, the breaking of one rib constituted the injuries sustained. We are glad to report that he is improving fast and will soon be able to resume his labor.

25c COFFEE 25c

Silver Shield Coffee at 25c is a coffee which we are pleased to recommend entirely on the drinking qualities of the goods. It certainly is as good as a great many now offered at the price. In addition: Premiums of Rogers 1847 Silverware accompany it. The cost of premiums comes out of our profits and the profit of the wholesaler, not out of the quality of the goods. It has greatly increased our coffee trade, thereby compensating us for handling it at a very low per cent. of profit. We are pleased to have you try it.
