Business, Society and Scallions.

The perplexing case of a young man in a Philadelphia department store is of peculiar interest at this particular time, when the scallion, otherwise known as the young onion, makes its appearance in its most seductive form. In common with everybody whose gastronomic tastes are properly developed, athis young man is fond of scallions. It appears that at a recent midday Euncheon he indulged his appetite for this fragrant and succulent vegetable, whereupon that imperious individual informed the young man that he must not eat onions, as the odor was offengive to customers, and that a repetition of the offense would mean his dis-

presumably is, he wrote to an editor for advice on the subject. The editor tent. This he decided to do. But his perplexities did not end here. It seems that besides his passionate i

fondness for scallions the young-man delights in the society of cultivated young ladies and is in the habit of call- large areas of ground which are often ing on them frequently after business | mistaken for single plantations.
