From being decidedly apprehensive as to the outcome of Judge Taft's speaking tours Republican leaders are now convinced that one of the wisest moves of the campaign was the decision to let the Republican candidate visit as many sections of the countr as possible between now and election day and talk to as many voters as the time will permit. When speaking tours for Taft were first discussed the opponents of the plan based their opposition on the fact that as an orator Taft cannot be compared to Bryan. They argued that Taft, who makes no pre tense to oratory, would be placed at a disadvantage appearing on the stump against the gifted Nebraskan. Bu

Taft's best friends cannot claim for him that he is an orator. But he can tell t truth and does tell it. He will not have to paint beautiful word pictures what should be done. He will not have to plead with silvery eloquence for the alleged downtrodden nor call on "the masses" to rise up and save the country from the ruin which Bryan has been predicting and finding various

panaceas for during the past twelve What Taft has to do is to state cold, clear cut facts, to tell the truth about himself, to give to his auditors a clear and unmistakable idea of what Taft the man is and what he stand for.
