the proper understanding of her womanly system and well-being. Every woman. young or old, should know herself and her physical make up. The womanly system is a delicate machine which can only be compared to the incricate mechanism of a beautiful watch which will keep in good ranning order only

with good care and the proper oiling at the right time, so that the delicate mech--anism may not be work out. Very many times young women get old or run down before their time through ignorance and the improper handling of this human mechanism. Mental depression, a confused head, backache, headache, or hor flashes and many symptoms of derangement of the womanly system can be avoided by a proper understanding of what to do, in those trying times that come to all women.
