Now it is an established principle of business that any commun nceds diversified industries. farming town where there are hustle ing and progressive men will tax, itself heavily in order to get manuprotective duty is just the same thing as what happens when a board ef trade goes around with a subscription paper, and gets men to take stock in a new manufacturing

cern. Only in case of the tarific

the burden is not berne by a few. but it is divided up among the eatire people. If it pays for a town to attract and retain manufacturing industries, it pays for a nation. Every traveller and economithe regions it has seized, by enknows that much less wages are na in Europe than in this country Therefore, there are a large number of industries where goods can be produced cheaper in England and Germany than they are produced here. Consequently, the removal the tariff duty simply means that our industries must do one of two things, quit business, or cut their

wages to the European level. Either alternative involves a vast amount of suffering. If the factories hurt by free trade should close up, stranded. Many of them would be Young Turks were glad enough to too old to learn new trades. Not all zer peace last year by paying \$250,- The Wilson, Roosevelt and Chacf them could go farming. Many of [100] to repair the dwellings burned in fin votes are widely and evenly them would become the benefic the insurrection, and the rebels got scattered. aries of charity, public and private. On the other hand, if the mills their privileges of citizenship. thus affected should reduce wages to the European level, a degree of Insuffering would exist in our. . towns that is almost inconceivable. | . . Let the voter reflect carefully on crags and glens.

this alternative before voting for a party that has declared unequivocally, for a revenue tariff.

MONEY COMING HARD.

This is not a good-year for bar'ls. The law against campaign contribu-Mons by corporations creates dismay among many hungry patriots. It is one of the mysteries of our

bolders in financial corporations per That is that the least expensive mitted their managers to swell the way to maintain good streets is think that the joint •wners of business corporations were ! entitled to some say as to how their versally condems.
