Why has this state of atfairs come about? That, I think, even a child

to the Progressive cause.

could understand. Strange as it may seem the Republican party of Allegany County has not been all to the bad. There has been always in the Republican party a faction which has stood for decency and right government, yet. I am afraid that this faction has been in the minority. Many a good Republican has for years gone to the Polls and voted the Republican ticket merely because he did not have anything else to do, or any other party which he thought better. Yet, it many cases it has been a disagreeable as well as a painful duty, and many a man has informed us that for years he has voted the straight Republican ticket in Allegany County yet felt obliged to hold his fingers over his nostrils while casting his ballot So you see, friends, it has been this element in the Republican party which was so eager to grasp at anything which promised a better, cleaner and more decent government of our affairs. But, that is not the only element which has gone over to the other party. Naturally when one party has been in control of a situation over a long period of years, different get control of the party. Other men of the same ambition are themselves wishing to control the party. Naturally these factions will later on clash. This condition is even more liable to happen when a party has gotten so corrupt that it finds istelf on the decline. Just so, in Allegany the Republican party. The old saying is, "That a house divided against itself cannot stand." This is exactly what is happening to the Republican party, and we know how the Hancock element is fighting the other. Republican element, tooth and nail. Just so, will the old saying hold good The Republican House cannot stand against itself so much necessarily, this year, fall. Perhaps to some of us it will be a matter of regret to see the ending of the Republican party. Many of us have voted the straight Republican ticket when the Republican party stood for different things than it stands for at the present time. We have, many of us cast our ballot for the Republican cause at a time when the Republican party stood for all that was good and honest in government, but also, like many another condition the pary has been in control too long. But, someone says, " " "the Republican party in itself is all right; it is merely the people who are running the Republican party at the present time." To such as would ask such questions we reply, "Who is it in a certain party that controls that

party, if not the people themselves?" Another man will say, "Why not clean" up the Republican party from the inside?" That would be all right if practical. We know that it took the Spanish people 400 years to throw off the party of corruption which hal so long governed Spain. No, my friends we cannot wait 400 years for such a thing to come about. What I we can do however, and what we are going to do is to relieve these, self-made indviiduals who have for many years been in control of the political affairs of this County. Inother words, we are going to relegate them to the back ground and in their places we are going to put bright, honorable intelligent men. But, you say, will not the putting of the Pro- ed for Supervisor on a fusion ticket, Allegany County. The family name i gressives in power only give us decent government for a short time. That: may be very true, and after a few years of good honest Progressive government if we find that these men that we have placed in power begin Progressive, Democratic and Prohito show the signs of decadence then we will have to do another house-bitionist parties, is a man who comcleaning, then these men will in turn have to go, and a better, cleaner mands the confidence and respect bunch will again arise to take their places. What is in a name? Perhaps nothing, perhaps a great deal, and again. He is neither a machine man nor occupied responsible positions in High!

The time was, when a man voted either the Democrat or Re-tan office-seeker; but offices have School work in the West, then In those good old days party names meant, returned to Alfred six years ago to Hornell.
