Fund Opens January 11

HERE will be a four day enrollment period, first payments before Friday, January 15th. Regular enrollment may be made thereafter provided payments are made up to date. You see the advantage of joining the club at the outset. Then it will be easy to make your payments.

HOW TO JOIN

Call at the bank and ask to join the Christmas Holiday Fund, making the first payment before the close of Monday, January 11th.

Payments are due the first of each week, or may be made in advance as far as you like.

You can join one or all of the classes and can take as many memberships as you wish in one class.

Guage the amount carefully at the start, according to your estimated income.

COSTS YOU NOTHING

THERE are no fees in connection with the C. H. F. You get the benefit of this savings system free of charge. It is your opportunity—grasp it. Our chief interest is to give you a savings start, a Merry Christmas in 1915 and an introduction to this bank with its helpful policy and up-to-date facilities.

Next Year Have the Money, Instead of Regrets—Have Money for Presents and a Nest Egg Left Over for a Regular Bank Account—Accomplish These Things Simply by Letting this Bank Help You Help Yourself

EACH payment you make will be recorded with a punch on your Record of Payment Card, which will be your receipt.

If, for any reason you discontinue payments you will receive a check for the amount you have paid in, when the fund closes.

The point is—go in to "stick" and win a saving start. You owe it to yourself. Keep thinking of that MERRY CHRISTMAS.

MAINTAINING the Christmas Holiday Fund involves much responsibility and some extra accounting for us, so it is only fair that if you start as a C. H. F. member, you should stay with it.

Hence we must make the rule against withdrawals, either in whole or in part, as that would complicate the system too much. Whatever you deposit will be held until two weeks before Christmas.

But you cannot possibly lose, even if you should cease payments. Your money would remain here for payment at the appointed time.

The Western New York Horticultural Society will meet in Convention Hall, Rochester, Jan. 27-29, for its sixtieth annual meeting. The object of the society is the advancement of the science of pomology and the art of fruit culture generally.

"Casey," said Pat, "how do you tell the age of a turkey?" "Oh can always tell by the teeth," said Casey.

"By the teeth?" exclaimed Pat. "But a turkey has no teeth." "No," admitted Casey, "but O have."

Clare P. Mapes, telegraph operator at the P. S. & N. railroad at Birdsall, had an exciting moment when he saw a coal train leave the rails and head direct for the station. Mapes ran from the building just as the engine plunged through the wall of the building.

At a special election last week the Village of Bolivar voted in favor of a paving proposition by a good majority. The proposed pavement will be over a mile long and the estimate cost will be \$35,000, to be paid for by the village, abutting property owners and local and state macadam fund.

The amount of business that a store does is in proportion to the persistence with which it solicits business. Consequently the store that advertises is the store that turns its capital frequently. Such a merchant does not need to get as much of a profit on each sale as the slow turning store does. Wherefore it pays the public to patronize the stores that advertise because they can afford to sell cheaper.

Albert H. Rose, formerly for many years a well-known resident of Cuba, and a member of Bartle Post, G. A. R., of that place, died on Tuesday of last week at his home, No. 8 Schutzer street, Rochester, to which city he and his wife moved from Cuba about six months ago. Mr. Rose was seventy-three years of age. He enlisted in the Union Army at the age of nineteen years, and was in the Battle of the Wilderness and Gettysburg.

The Law of Gravitation. In 1609—seventy-seven years before the publication of Newton's "Principia"—Shakespeare in the play of "Troilus and Cressida," act 4, scene 2, makes one of his characters say: "Go to this body what extremity you can, but the strong base and building of it is as the very center of the earth, drawing all things to it."

This would seem to look very like the announcement of the law of gravity, and yet nothing can possibly be truer than the fact that the great poet did not in any substantial sense anticipate the philosopher. Between Shakespeare's fancy and the scientific triumph of Newton there is an infinite difference.—New York American.

Then He Landed. "Beauty is a woman's most important attribute," said a New York beauty doctor. "She who increases beauty is woman's greatest benefactor. Husbands, brothers, even fathers—in their inmost hearts, beauty is the thing they desire most to see in their feminine relations. Only the other day a gray, fat old gentleman entered a newspaper office and said: "'Are you the managing editor?' "'Yes,' was the reply. "'I suppose that on you, then,' said the visitor, 'rests the responsibility for this morning's reference to my daughter Patty as Fatty. Take that!'"
