Now he that buildeth.

At 6:30 Sunday evenings, those who wish to be made optimistic in regard to the future of the town and church should here witness a delightful spectacle.

The Evening Meeting.

At the Baptist church Mr. Randall will offer a sermon to the federated congregation. Plan to be present.

Just a Word to Ponder—

The matter of religion is so important in a town's life—every phase of it—that wisdom would say, Let us support this safe-guarding of the town's vitality. If there are those willing to receive only, well; but think that out a little. Take away religion—think it out of the shops, the homes, the business interests, the social, the educational, the cultural. Think it out of the town's life. Consider then the town's life. There's life with it in the town.

Who Lends a Hand to Religion Build up the World and the King's Kingdom.

At the next federated service in this church the young woman will receive her part of the consideration. Bear the subject in mind and expect some rather important revelations.

Church Night

Thursday evening belongs to the churches which are the most important factors in any town for the propagation of righteousness and justice. Property in Andover would decrease in value 50 per cent. if the churches should close up. As a matter of self-preservation they should be supported well.

The anthem last Sunday morning was in the hands of the men. Many compliments upon their excellent work were heard. They will be heard again soon possibly next Sunday.
