Large Clearance Sale Savings

Every day has seen enthusiastic crowds streaming into our store and carrying out great quantities of desired merchandise plus the profit which they have gained by coming to this store at this time.

Only twice a year does this opportunity knock at your door, but this time more vigorously than ever before. WHY? Because never before was it more necessary for us to make a quick stock reduction. We must have cash and we have reduced the price of our merchandise from ten to fifty percent to get it.

No Time To Lose

Many things may need your attention in the few hours that are left between now and Saturday night, but none of which you can derive so much profit.

The wise manager plans for the future. She will take advantage of our need for cash and lay by a year's supply of household needs thus gaining from four to sixteen times as much interest as the bank would give for a year's use of the same amount.

Do It Now

Look at our page in last week's edition and get a faint idea of the big savings we have for you. Remember, we can only tell a fraction of the good news in our advertising. Come to the store
