

Give Old Diogenes a Chance—
Be Honest With Yourself

PROCRASTINATION is the thief of saving. Don't say to yourself, "I'm going to start a bank account just as soon as I pay those bills." Pay your bills by all means, but put something in the bank at once. Be fair with yourself. START NOW. Saving becomes easier as you go along. It becomes a HABIT. Try it and see.

THIS BANK WILL HELP YOU.

Can Your Bookkeeper Add Two Columns of Figures at Once?

The Burroughs Duplex can—

For instance, it can add and print Debits and Credits at one operation, distinguishing one from the other by appropriate symbols and securing both totals while going over the figures but once.

And that is only one of the many two-in-one operations possible on the Duplex.

Give your Bookkeeper a Duplex, and he will give you complete figure facts about every phase of your business—the kind of information that helps plug up leaks.

Besides, he'll have about two hours a day that he can spare you for other profit producing work.

Write or ask us about this machine.
