POULTRY SHOW AT ALFRED SCHOOL OF AGRICULTURE

One of the attractive features of the Farmers' Week at the Alfred State School of Agriculture will be an excellent exhibit of poultry. Last year the show was a complete success. This year plans are being made for even a bigger and better show. A good room has been provided which will be equipped with coops and all provisions for the proper care of the fowls. Food will be provided free of charge.

Not a little importance is always attached to the judging. Prof. Krum of Cornell has been secured for this purpose again this year. This will assure all

exhibitors fair and expert decisions.

First and second premiums, ribbons only, will be awarded for young and adult birds, of all standard breeds. This show will be free to all. There will be no admission or entrance fee.

To secure a place, entries should be made early. The date is March 9, 10, 11 and 12.

A useful, but still unused, article (whether machinery, furniture, apparel, office fixtures or appliances) is an unnecessary burden to you. Utilize a "For Sale" ad, and realize always-needed cash for an unneeded chattel.

You can't sell real estate for more than it's worth simply by advertising it—but you can sell it for its actual worth through advertising—with little delay and little expense. The informed buyers of real estate are always close readers and investigators of the ads.

We are showing the new Spring "Mallory" models and you can depend on it that the styles are correct.

"Mallory" Hats are "Cravenette" Weatherproof—an exclusive feature which keeps them fresh looking—another reason why your hat should be a "Mallory."
