## 69 Years to Make a Suit

Back in 1846 the makers of Clothcraft began to manufacture medium-priced, clothes for men and young men.

Their idea was to keep in that field—about \$10 to \$20—and make the best possible clothes for the money.

This sticking at it for 69 years has produced extraordinary results through continuous advancement of factory methods, improved machines, training of workers and so on.

We haven't any more hesitation in investing in Clothcraft Clothes than we would in buying gilt edged securities.

We know what you'll say when you see Clothcraft 5130 Blue Serge Special at \$15 and the other spring models at \$10 to \$20. Come in today.

## GOVERNORS URGE SHORT BALLOT.

Simplification of citizenship and responsible unified state administration are the pervasive ideas in the messages of many of the governors this year. In several states—as in Iowa, Illinois and Minnesota—efficiency committees have been at work on the reorganization of the state offices. The results of these investigations have been noted with interest by executives of other states. These governors have pleaded for the Short Ballot as a basis for efficient organization.

Not many people whose thriftness is educated will miss any great number of this week's want ads.

## SHORT BALLOT IN THE WEST

Six years' experience with long primary ballot said to have prepared people for change. Governor Burns strongly in sympathy. Bills to be introduced this year for making state board of equalization and municipal court at Chicago appointive.

With fair business insight you may make every hour you devote to reading and answering ads pay you.
