THE ANDOVER HIGH SCHOOL

Conducted under Supervision of Prin. C. C. Sterner, Faculty and Pupils.

R. A. Kneeland of Rochester was a welcome visitor at our school last Tuesday. This gentleman is known to many people. When he gives advice it is the kind to be cherished; when he criticizes, it is with justice. Here indeed is a prince among men. His cheerful smile has caused many faces to radiate sympathetically.

Arbor Day will be observed Friday, May 7th. A short program will be given in the morning.

Special mention should be given to the current topics as brought to us last Wednesday. Reva Clarke gave us a fearless, scholarly resume of the latest news. If only all students could do as well, how satisfied we would be. Miss Nina Hollenback of Geneva has signed her contract to teach Latin and German in our school next year. Miss Ruth Anderson of Buffalo will teach Kindergarten and First Grade. These two young ladies come to us highly recommended and we have every confidence in their success.

SPRAY FOR APHIDS

There are thousands of aphids upon the apple buds and hence the trees should be sprayed immediately, in order to control them. These little lice are brown or greenish in color, are found upon the terminal buds of the apple, plum or cherry trees. They excrete a sweet liquid the so-called "honey-dew." This often covers leaves and fruit. The lice suck the interior juices of the leaves.

Early treatment before the leaves curl is best since the insects can then be more readily nit. Treatment—Add nicotine sulphate ½ pint to 50 gallons of your mixture. NOW.

For the tent caterpillars add 3 pounds of arsenate of lead, to the lime sulphur solution. Use 1 to 3 lime sulphur or 6 gallons lime sulphur to 50 gallons water. F. C. Smith.

Manager Farm Bureau Agent, U.S. Dept. of Agriculture.

SIAMESE BELIEFS

One of the strangest beliefs of the Siamese is that they must under no circumstances take life, and the Buddhist priest goes so far as to strain insects out of his water not because he thinks them nasty, but because it would be wrong to kill them. Another is not to bathe after dark lest he should crush insects while drying himself. Yet he does not mind eating meat which others have killed, and he has no objection to taking fish out of the sea and leaving them to die.—London Standard.

QUEER REQUESTS

Queer requests are often received for prescriptions, which might puzzle either doctor or chemist. Here is one recently reported by a druggist. It is a note from an excitable mother, whose nerves were apparently as much in need of treatment as the digestion of her infant:

"My little baby has et up its father's parish plaster. Please to send an anecdote by the inclosed little girl."—Youth's Companion.

TWO TEXTS

A church in Scotland being vacant, two candidates offered to preach, their names being Adam and Low. The last named preached in the morning, taking for his text, "Adam, where art thou?" The congregation was much pleased and edified.

Mr. Adam preached in the evening, taking for his text, "Lo (Low), here am I!" The impromptu and the sermon gained him the church.

Our "B. B." column always does the business.

CARE OF SEED POTATOES

Suggestions by the New York State School of Agriculture At Alfred University

Good seed is an important factor in potato production. Potatoes which have grown long sprouts have lost a part of their vitality and can never produce as good a crop as potatoes which have not sprouted before planting. No one would think of pasturing corn after it was up and thus compelling the plant to grow another stalk, yet most potatoes have grown one set of sprouts before they are put in the ground. Where a cellar is cool enough to keep potatoes from sprouting the seed need not be disturbed until the time of planting. Unfortunately few cellars can be depended upon, and it is necessary to remove the potatoes.

Potatoes should be taken at once from the cellar and spread out on the barn floor or some other light, dry place. Here the seed will remain hard and few sprouts will grow, leaving the strength of the potato to put forth good, healthy sprouts after planting.

It is a good practice to "green" the potatoes. Two weeks before planting time the seed is placed on the lawn in the sun. Short stubbed green sprouts are produced. These do not break off when planted by hand, and make a much earlier rugged top. This plan is especially recommended for the garden where early potatoes are desired.

SUPERSTITIONS ABOUT SNEEZING

Xenophon, Prometheus, Themistocles and Cicero regarded a sneeze as a favorable omen. Among the Hindoos and Persians, however, sneezing and yawning were ascribed to demoniacal possession. The Hindoo snaps his thumb and finger and repeats the name of one of his gods. The Moslems believe that the devil may leap into a gaping mouth, and hence when he yawns he draws the back of his hand over his mouth and mutters this prayer, "I seek refuge with Allah from Satan, the accursed."

THE WAY IT IS

I said to my friend, "Tell me my faults and I will know you are my friend." And he told me my faults, and I spurned him, for I thought him a fool.

I said to a second friend, "Tell me my faults frankly." And he said I had no faults, and I spurned him, for I knew he was a fool.

I said to my third friend, "Tell me all my faults." And he told me my faults, and I thanked him. And he spurned me, for he knew I was a hypocrite.—Cleveland Leader

FOR THEIR OWN CALVES

A couple of young men were out fishing one day and on returning were going past a farmhouse and felt hungry. They yelled to the farmer's daughters, "Girls, have you any buttermilk?"

The reply was gently wafted back to their ears, "Yes, but we keep it for our own calves."

The boys calculated that they had business away, and they went.

AMONG THE SUFFRAGISTS

In North Dakota where the saloons locked the woman suffrage bill in a Fargo safe to prevent its passing, the women are now circulating an initiative petition which if successful, and they say there is no doubt about it, will bring the question before the voters next November in spite of the Legislature.

In Pennsylvania the suffrage forces have been augmented by the open support of the State Superintendent of Public Instruction, Dr. Nathan C. Chaffer. "I have been in states where women vote," he tells the teachers' institutes which he addresses, "and I want woman suffrage in Pennsylvania."

In New Jersey, the Legislature has set Oct. 19, the last registry day for the general election as the time for the voters to pass on the woman suffrage amendment. A bill had passed the House fixing September 21 as the date and its author charged that the new date was to prevent women from voting this year in case the suffrage amendment passed.

If so, it is a cheering thought to the suffragists: that the politicians believe that votes for women is to be feared as imminent in the State.

In Chicago, according to the Chicago Herald, Judge Scully has reversed his decision against women as election officials. He now holds that "the presence of women in polling places is essential," and he adds, "Their presence alone has prevented squabbles on registration and election day. They have elevated the polling places by lending dignity to them."

In Kansas, the Governor of the State, Arthur Capper, has issued a statement to the effect that woman suffrage has produced immediate results in that commonwealth. "It impelled," so the statement runs, "all political parties to include in their program humanitarian projects and moral issues which previously they ignored. It is making for higher ideals in both public and private life." The charge that good women do not vote he declares to be entirely false.

"I want suffrage politically, legally, civically, and naturally," said Mrs. H. O. Havemeyer at a recent meeting in New York City. Some men say that they do not want to see women at the polls, but did you ever hear one say that he did not want to see women pay taxes?" ANNA CADOGAN ETZ. Up-State Woman Suffrage Press

HAWTHORNE CLUB

The Hawthorne Club will meet with Mrs. Backus, Monday, May 10th, at 7:30 p. m.

The following program is arranged:

Roll Call—Industrial World. Review—"Your Child To-day and Tomorrow," Chap. 13. Miss Snyder.

Reading—"Through England With Tennyson," Chap. 9, 10, 11. Mrs. Brundage.

SENT PROTEST TO GOVERNOR WHITMAN

Village Trustees Dislike Idea of State Butting Into Village Matters Unnecessarily.—Trying to Put Water Plant Under Commission.

Notice has reached Andover of a bill before Governor Whitman for signature which will put municipal water plants under the supervision of the Public Service Commission.

This will greatly handicap the efficient work of the local Water Board if the law is signed, and the Andover Board of Village Trustees has sent the following protest to the Governor requesting his veto to the bill.

Village of Andover, Andover, N. Y. May 4, 1915.

Governor Whitman, Executive Chamber, Albany, N. Y. Sir:—

In Re Assembly Bill No. 716 Senate Bill No. 2050

The Village of Andover, N. Y., owns, operates and manages its own water supply system, and its patrons are well pleased with the service they receive. People visiting our village from the city of Cornell and surrounding villages praise the quality of our water, and by reason of this and many other good reasons we object to the idea of the Public Service Commission controlling our acts. We believe that many times this supervision would be to the height of folly to delay our actions while waiting the action of the Commission. We beg you to veto this bill as it is certainly obnoxious to our Village and its inhabitants. Our Village is proud of our water system and the service it gives and we hope to continue as we have in the past.

Yours very respectfully, E. J. ATWOOD, President J. W. WILLIAMS, Trustee J. M. HARTRUM, Trustee ANGELO O. TUCKER, Village Clerk.

TRACK MEET

All persons who have contributed anything for Suffrage Earnings Day or have any amount to contribute are invited to a Track Meet at the home of Mrs. R. B. Burrows Wednesday evening, May 12th. Bring your contributions and enjoy an evening of fun.

SUFFRAGE CONVENTION TO BE HELD IN BELMONT

The Allegany County Convention of Suffrage Clubs will be held at Belmont on Thursday, May 20th. Among the speakers will be Mrs. Carrie Chatman Catt of New York City and Mrs. Frank Shular of Buffalo.

ANNUAL SCHOOL MEETING

The regular annual School Meeting was held in the Academic room of Andover High School Tuesday night.

A. O. Tucker was chosen chairman of the meeting.

The Clerk of the Board of Education, Mrs. Florence S. Earley, read the minutes of the previous meeting, the Treasurer's report, and an estimate for the coming year. All were duly approved.

A tax amounting to about \$5,900.00 was voted to be assessed on the district for the expenses of the school for the ensuing year.

F. S. Clarke was elected a member of the Board of Education in place of F. W. Burrows whose term had expired.

Rev. V. L. Eggleston was elected a member of the Board of Education in place of C. W. Williams, whose term had expired.

BIBLE SCHOOL CONVENTION AT BELFAST

The Allegany County Bible School Convention will be held at the Baptist Church next week, Tuesday and Wednesday, May 11th and 12th. A program of especial merit and new features has been provided. A School of Methods with four sessions, and twenty-eight divisions, covering all departments of Bible School work will be a new feature. Miss Elizabeth Harris, the able State Elementary Superintendent, will deliver three addresses. Mr. Ira Sitterly, of the Hornell Y. M. C. A., will have charge of the secondary work. A number of strong addresses from new pastors recently come to the county will add to the interest. The spirit of the convention is likely to be hopeful and aggressive, owing to the progress made during the last year.

Belfast is planning to entertain royally and free all who attend. If you are a Bible School worker do not fail to be present.

ERIE MEN IN ANDOVER

Supt. June, Mr. Colwell and Mr. Conley of the Erie railroad were in Andover yesterday looking over the Andover station and grounds in company with President Atwood. They have a number of improvements planned, some of which are to be completed this year and some next season.

LOVELAND-CHAFFEE

Miss Crystal I. Loveland of Thurston, N. Y., and Victor G. Chaffee of Independence were united in marriage Wednesday, April 28, 1915, by the Rev. J. T. Cameron, at the M. E. parsonage in Bath, N. Y.

Some of the people who will read your next ad in the News will be trying to find out what is your price on something they must buy within a day or two. If you fail to quote a price, they'll probably assume that you don't sell it.
