

CENSUS OF 1915

An Appeal to Public-Spirited Persons For Assistance in Correcting Some Erroneous Popular Opinions

In June 1st of the present year, 1915, the census of New York State begins. It occurs every ten years and is the basis of the distribution of representation in the State Legislature. It is also the means by which the State Government ascertains the increase in population and is required by the Constitution and by the laws of the State.

Census For Statistical Purposes Only

Information sought will be used solely for general statistical purposes. It will neither be published, nor used in any other way, to disclose facts regarding any individual or enterprise. The census is not, never has been and cannot be employed to obtain information that can be used in any way in the assessment of property for purposes of taxation, for deportation, or extradition measures, army or navy conscriptions, compulsory school attendance, child labor law prosecutions, or in any way affect the life, liberty or property of any persons.

It has nothing whatever to do with the detection, arrest, prosecution or punishment of any person for any suspected or actual violation of the law.

Census Inquiries Defined By Law

The census inquiries are defined by law and the questions on the schedule are framed by the Secretary of State in conformity with that act. They apply to all persons living in the State on June 1st, next, "Census Day." The same questions are asked about each person, who must answer all questions.

The Questions Regarding Persons

The census law, with reference to population, requires that the enumerators' questions shall, for each inhabitant, call for the name, relationship to head of family, color, age and sex, nativity, that is, if born in the United States or in a foreign country; their citizenship, occupation, trade or profession, of kind of work, whether employer or employee on June 1st; also inmates of institutions and infants under one year of age.

Badges Worn By Census Enumerators

Census enumerators wearing badges with "State of New York, Secretary of State, Census Enumeration, 1915," stamped on them, will go from house to house and from farm to farm, beginning June 1st. They are not to be regarded as spies, detectives, policemen, constables or tax assessors. They are employed by the Secretary of State and do not represent any other department of the State Government.

None Affected By Their Answers

No person should hesitate, neglect or refuse to answer all of the enumerators' questions. He only asks those necessary to fill the schedules, which are required by law. Nothing that is told him can in any way be used to the detriment or damage of any person or his family, or his property. Replies to the enumerators are, and must be, held by the Bureau in strict and absolute confidence. All officials before entering their duties are obliged to promise not to disclose any information they may obtain, except to the Bureau.

Penalty For Failure to Answer Questions

If any adult person, refuses or willfully neglects to answer an enumerator's questions, or if any person willfully gives answers that are false, he or she can be arrested and fined. Keepers of hotels, apartment houses, boarding or lodging houses, tenements or other buildings, in which persons make their homes, must help the enumerator when asked or they will be liable to arrest and punishment by fine.

While regretting very much the necessity of a mid-year change and all it means he feels that the situation in the new pastorate demands immediate attention. With sincerest gratitude to all who have contributed to the success of the work in Andover and a feeling that some of the best friends and workers in a ministry of thirteen years are to be found here he pledges himself the more completely to the life and work of the church and the kingdom.
Supplies will occupy the pulpit during June. A student will be on the field from July 1st for the Summer.
Prayer meetings every Thursday evenings as usual.
