THE MAN WITH TEN DOLLARS

and no debts is a Capitalist. He is a potential Captain of Industry. He is in position to control the labor of four men for day, the labor of one man for several days; and in this way multiply his own individual efforts.

So Ten Dollars isn't such a small thing after all. To be the owner of Ten Dollars with the opportunities it brings is well worth striving for. And it isn't so very hard to accumulate Ten Dollars, or \$100, or even \$1,000 with its larger opportunities,—if you go about it the right way, the safe, business-like way.

YOU can do it. Just start an account with us and add to it as you can. It will probably surprise you how quickly you can accumulate a "working balance"—an amount sufficient for a small investment. Try it.

CHANGES IN THE LEAGUE

Gets to the Silk Mill For a Victory. The Team Escapes From Hill By One Score.

Cutlery took a freak ball from the Silk Mill Saturday by a score of 15. The Silk Mill team started like a bunch of old veterans and had things their own way to the 8th inning where they stood 12 to 4 in favor of the Cutlery. Then something happened. Kaufman was the man up in the 8th, and he hit out a single. Church then hit a home run. Then something else happened. The Cutlery got a hit and about the whole Silk Mill team and all took a joy and four hits, three base hits, and two errors coupled three hit batsman resulted in a 15 to 4 victory for the Cutlery, the Silk Mill only got one hit.

The tailenders got tired running around the bases last night. The Silk Mill team did that they were too fast. Andover teams any more withdrew from the league and are going to play their own teams. Their place will be filled by another team in the near future.

Town Team and South team was a good evenly matched game, each team having a run in the 6th and South team runs in 6th and South team runs in 6th and South team runs in 6th.
