## WASHINGTON WEEKLY WEATHER FORECAST

For the Week Beginning Wednesday, June 30, 1915.

FOR NORTH ATLANTIC STATES. — A shower period, including June 30, July 1, and July 2, will be followed by fair weather during the remainder of the week. The temperature will rise during the early part of the week and change but little during the latter part. On the whole the tendency will be upward.

## HOW TO PRODUCE CLEAN MILK

The State College of Agriculture at Ithaca, N. Y., Tells News Readers How They Can Produce Sanitary Milk.

Methods are more important than equipment in producing high-grade milk, according to a reading-course lesson entitled "The Production of Clean Milk," recently issued by the New York State College of Agriculture. A man may have an inexpensive cow stable, but if he keeps it clean, grooms and feeds his cows long enough before milking to allow the dust to settle, wipes the cows' udders with a damp cloth before milking, and handles the milk in a sanitary way in sterilized utensils, he can produce clean milk.

These facts, so the college says, are of particular importance to milk producers in the State because of the requirements of the milk ordinance that went into effect January 1, 1915. This ordinance requires all milk intended for retail delivery in any city or village to be graded according to the health of the cows, the sanitary condition in the dairy barn and in the milk house, as determined by the dairy score, the bacteria content of the milk or cream, and whether the milk or cream has been pasteurized. A copy of the score card, as included in the publication, is perforated so that it may be torn out and used in scoring a dairy.

The college pays particular emphasis on the construction and the care of dairy utensils and gives figures to show that at least two-thirds of the bacteria sometimes present in milk may be excluded by using a small top milk pail. All crevices and seams in dairy utensils should be well flushed with solder, it is stated; otherwise bacteria will collect in these places and contaminate each fresh lot of milk put into the utensil. All utensils used should be rinsed in lukewarm water, then washed with a brush, not a cloth, in a strong solution of washing powder and hot water, and then either thoroughly scalded with boiling water or better still, sterilized in steam.

Any resident of New York State may obtain this reading-course lesson by applying to the State College of Agriculture, Cornell University, Ithaca, New York.

## SMITH FAMILY REUNION

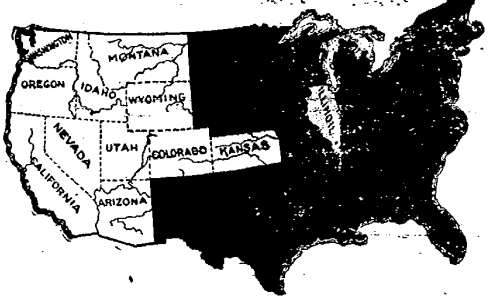

Mr. and Mrs. Richard Smith, Mr. and Mrs. John Strait and Mrs. Miss Hope Straight attended the Smith reunion last Saturday. It was held at the home of Wm. Carey on Fox Hill. A fine dinner was served at 1 o'clock after which a very nice program was enjoyed by all.

The next reunion will be held at Arthur Woodward's, at Whites Corners, the last Saturday in June 1916.

Officers for the coming year are Wm. Carey, president; Mrs. Richard Smith, secretary; Mrs. Ora Carey, treasurer; Miss Grace Woodward, Miss Hope Straight, Miss Kate Huffeling and the Misses Mary and Anna Smith are the program committee.

## The Dominant West

Women Vote In the White States

Almost one-half of the area of the United States is included in the woman suffrage states. Area doesn't vote. But people vote. And, as it happens, the vast western stretch of territory where women vote is that part of the United States which is most rapidly filling up with people. Given one or two more decades and there will be a great corps of women voters in the west, women trained as men are trained to civic and political responsibility, trained to active political co-operation with men, trained to the western point of view. As long as the east persists in the unenfranchisement of women, for every couple, man and woman, in the east there will be one vote. For every couple, man and woman, in the west there will be two votes.

## The Chautauqua Program

Laughter, music and instructive entertainment will abound throughout the entire five days' program of the Andover Community Chautauqua which begins here on Aug. 3rd.

Two sessions of lectures and entertainment will be held daily, according to the program which has been announced, and there will be music at every session.

The directors of the Community Chautauqua, under whose auspices the Chautauqua here will be given, state that entertainment of the highest grade will be provided on this year's program at a price of admission which has been kept at a minimum.

Lectures on vital, present-day problems have been arranged for together with addresses of a humorous and inspirational nature. This the tired man or woman seeking rest and recreation will find it during the entire five days of the Chautauqua, and will be able to take home some thoughts that will be inspiring and helpful as well.

One lecture has been arranged in which an expert will take up the problem of community development. He will explain in detail the place and purpose of the community in American life, and will suggest ways in which its sphere of influence will be widened. Such a lecture will naturally be of large interest to the citizens of Andover.

But the feature of the five days' program will probably be the concert to be given by Vitale's Italian Marine Band on the fourth day. Vitale, the director, is a mere lad, but he handles his band of seventeen pieces as capably as the most widely experienced directors.

An interesting lecture by Charles Brandon Booth, the prison authority will be delivered on the second day, and an entertainment of novelty, musical numbers given by the Swiss Alpine Singers and Yodlers will be the feature of the fifth day.

The complete program for the five days Chautauqua will be as follows:

**First Day**  
Afternoon—Opening Concert—The Metropolitan Glee Club. The Metropolitanians are quartette and offer an attractive program of vocal and instrumental numbers.  
Lecture—Dr. Charles L. Seasholes. Dr. Seasholes is a popular lecturer of the inspirational type. His afternoon lecture will be on the subject, "Is Life Worth Living?" (humorous and instructive.)

**Evening**  
Opening Concert—The Metropolitan Glee Club.  
Lecture—Dr. Charles L. Seasholes.  
The subject of Dr. Seasholes' evening lecture will be "The Man With the Pick," or "My

Philosophy of Life." This lecture is novel and inspirational.

### Second Day

Afternoon  
Opening Entertainment—The Venetian Players.  
Impersonations and Readings—Miss Emla B. Smith.

Miss Smith, who is the highest priced child impersonator on the Chautauqua platform, will give readings from child life, mimic numbers and bird warbling selections.

### Evening

Musical Prelude—The Venetian Players.

This company will play novelty numbers on the violin, cello and concertina.  
Entertainment—Miss Emla B. Smith.  
Lecture—Charles Brandon Booth.  
Mr. Booth is the son of Mrs. Ballington Booth. He will speak on "Reclaiming the Prisoner."

### Third Day

Afternoon  
Music—Miss Mae Sheppard.  
Miss Sheppard will sing selections from the operas, with popular songs and old-fashioned favorites.

Play—"The Spirit of the Passerby." Herbert and Floy Sprague, Herbert and Floy Sprague are a "company" of two people who present four act plays—taking all the parts themselves.  
Lecture—Douglas Mallock.  
Mr. Mallock, who is a widely known traveler and lecturer, will speak on the subject "This Town of Yours."

**Evening**  
Music—Miss Mae Sheppard.  
Lecture—"We Need to Live." Douglas Mallock.

Play—"Rip Van Winkle." Herbert and Floy Sprague.  
**Fourth Day**  
Afternoon  
Opening Concert—Vitale's Italian Marine Band.  
Lecture—Harry G. Hill.  
Mr. Hill is a popular and forceful lecturer and will speak on the subject, "Sugar For Sour Grapes."

**Evening**  
Grand Concert (in two parts). Vitale's Italian Marine Band.

### Fifth Day

Afternoon  
Opening Concert—Swiss Alpine Singers and Yodlers.  
Lecture—Hans P. Freese.  
Mr. Freese, who was born a Mormon, is a bitter opponent of the Mormon church and especially of its practice of polygamy. He will speak on the subject, "The Inside of Mormonism."

**Evening**  
Closing Concert (2 parts). Swiss Alpine Singers and Yodlers.  
Lecture—"The Mormon Church in Politics." Hans P. Freese.  
The afternoon sessions of the Chautauqua will begin promptly at 2:30 o'clock and the evening sessions at 7:30.

## BELFAST VS. ANDOVER

Saturday afternoon the Belfast Town Team will come to Andover and cross bats with the Andover All-Star Team. The game will be called at 3:30 sharp.

The line-up will be chosen from the following players: D. Williams, Lauterborn, Koffman, Trowbridge, Albright, Church, Howland, Jack Forness, A. Bloss, Raufenbarth, Brainard, Backus, Brundage.

## TO CELEBRATE LABOR DAY

Andover Young People Will Take Charge and Make It a Red Letter Day. Proceeds For Athletic Park.

It has been definitely settled that Labor Day will be observed in Andover this year. It will be more in the form of a genuine Labor Day celebration than those formerly held in Andover, as those working in Andover's industries are to take a leading part in the arrangements for the celebration.

The proceeds derived from the celebration of the day will be used to secure a first class athletic field for the use of all the young people of the town, factories, high school and others. It is one of the most deserving and sorely needed improvements this town now stands in need of, and the News will do all possible to promote it.

## DR. D. H. DAVIS

DIES IN CHINA

A cablegram received by Theodore Davis of Plainfield, N. J., tells of the death of his father, Dr. D. H. Davis at Shanghai, China. Dr. Davis had been at the head of the S. D. Davis Mission at Shanghai, China, for years.

## Commencement at the Alfred School of Agriculture

The graduation exercises at the State School of Agriculture at Alfred University were held Thursday evening, June 24th. Attendance of students was very large.

The regular department of agriculture exercises included during the latter part of March when most of the students finish their work but another smaller class usually finish in June. In all 10 students have received their diplomas from the school this year, of which six were young women.

Practically all of the young men enter some phase of agricultural work.

"As this is a State School there is no charge for tuition and no laboratory fees.

There may be a "real reason" why you should go shopping today, instead of "within a few days." You'll know after you've read the ads.

## VISITING ODD FELLOWS HERE

Greenwood I. O. O. F. Lodge Came to Andover Tuesday Evening and Conferred the Third Degree.

Greenwood I. O. O. F. Lodge came to Andover Tuesday evening and put on the work of the third degree in Odd Fellows Hall for Andover Lodge No. 786.

The trip was made by the Steuben county boys in automobiles, about twenty-five making the trip. Their degree work was excellent in every way, and highly commended by every one of the one hundred present.

After the work of the degree, under "Good of the Order" appropriate remarks, interspersed with jest and humor, from the visiting brothers were enjoyed.

A luncheon was given in the hall at the close of the Lodge to which all seemed to do justice. The visit of the Greenwood Lodge was one of the most interesting pleasures of the season, and it was unanimously the wish of all that another such occasion may be enjoyed in the very near future.

## ALFRED SCHOOL OF AGRICULTURE FARES WELL

The Appropriation Bill shows that in spite of the general heavy pruning by the Governor, the State School of Agriculture at Alfred University fared remarkably well. The only item cut out by the Governor was one for the equipment of the proposed demonstration building, but since this building is not to be built this year it will work no inconvenience. As a matter of fact the funds available for the maintenance of this school are in excess of those of last year by \$10,000. The action of the Legislature and Governor in the matter of appropriations shows in a substantial way their approval of the school and its work.

## New Poultry Department

Because of the interest in poultry raising in Southern New York, the State School of Agriculture at Alfred is to add a full-time department to give instruction in this branch of agriculture. This department will be in charge of Mr. Luther Banting, a graduate of the poultry department of the State College of Agriculture at Cornell University and a practical poultry man.

Courses will be offered and laboratory practice given in incubation, brooding and care of chicks, feeding for market and egg production; killing and dressing; and in the grading and packing of eggs and poultry products for market. A short Winter course will be offered as well as general instruction in the regular courses.
