MOUNT VERNON, THE HOME OF WASHINGTON

By J. E. Jones

A pretty little story of visits to Mount Vernon on the Potomac.

"Impressions and sentiments like yours and mine," explains the author to those who have seen our country's greatest shrine.

Bound in colonial blue and buff with hand illuminated cover design and George Washington's colonial ribbon book mark; profusely illustrated with handsome halftones and pen drawings, it is a dainty and invaluable reminder that will instantly appeal to every person who has been to Mount Vernon, while to those who have not had that good fortune this clever, happy story of our beloved George and Martha gives a clearer view and understanding of their colonial home, which is to-day the pride of Virginia and the Nation.

As a souvenir or gift book, for young or old, there is nothing to approach the elegance of this little volume, and it will make one feel more like a patriotic American to possess it.

Send \$1 for a copy of the first edition to be delivered to your address.

U. S. PRESS ASSOCIATION
Bond Building,
Washington, D. C.

Special Note: Mr. Jones is the Washington correspondent of the News, and if you will state that you are a reader of this paper, an autographed copy of the first edition will be furnished on the regular order.
