INTEREST speaks all sorts of tongues and plays all sorts of parts, even that of disinterestedness. La Rochefoucauld was right. Interest is the ever increasing rolling snowball of money. Interest grows upon what it feeds. Interest is never an idle fellow, but he is best let alone. GET INTERESTED IN INTEREST. Some INTERESTING FIGURES about what INTEREST WILL DO for the asking.

### Scientific Borrowing.

Some time since a little girl who lived in a rural community appeared at the back door of a neighbor's house with a small basket in her hand.

"Mrs. Smith," said she, as the neighbor answered her timid knock, "mother wants to know if you won't please lend her a dozen eggs. She wants to put them under a hen."

"Put them under a hen?" was the wondering rejoinder of the neighbor. "I didn't know that you had a hen."

"We haven't," was the frank rejoinder of the little girl. "We are going to borrow the hen from Mrs. Brown." - Christian Endeavor World.

### Mosquitoes Common to All Lands.

Every climate is the mosquito's choice. In the remote tropics the explorer who disturbs for the first time with the prow of his adventurous canoe the surface of a winding river finds a cloud of microscopic spearsmen waiting his arrival. In the great North woods the mosquitoes drive the deer into deep water, and the growl of their baffled buzzing about the bar of the sleeping woodsman is almost terrifying. The prospector, toiling under his pack in icebound Alaska, knows no respite from their stings.

### Not Qualified.

Two men were getting warm over a simple difference of opinion. They turned to the third man. "Isn't a homemade strawberry shortcake better than a cherry pie?" demanded one of them.

"Isn't a homemade cherry pie better than any shortcake?" inquired the other.

The third man shook his head. "I don't know," he said. "I board." - Cleveland Plain Dealer.
