Our National Capital

Events of Interest from the Seat of Government by the
 News Special Correspondent, J. E. Jones

OUR PATIENT PRESIDENT

Washington, D. C., September 10. This little old town of Washington D. C. is a pretty busy place, and the main thing in officialdom is to keep a cool head. Every day some new phase of foreign affairs entangles the Washington Government, and while the disposition is to be broad-minded and forgiving, still it is mighty difficult for Uncle Sam to keep his temper at all times. Of course most public attention centers on our controversy with Germany, but then there is Austria-Hungary with its Dumba; England and her arbitrary interference with shipping and its ridiculous censorship; besides a pack of other wolf-like nations in trouble, and doing provoking things. Forbearance oftentimes ceases to be a virtue, but President Wilson ought to be considered as a model for any artist desiring a pose of "Patience."

"National Preparedness"

While the country is crying for "National Preparedness" the practical view of the situation, taken by leading Democrats, indicates that they do not propose to saddle enormous appropriations onto the people. The President and his closest advisors are conservative in their ideas as to increases in the Army and Navy, and it is a safe prediction at this time to say that any great increase in the military or naval policy will have to be brought about by Republican help, in the next Congress.

Daniels Wins Acclaim

It has been almost a fashion to "cuss out" Secretary Daniels, but by reason of having enlisted the services of Thomas A. Edison and twenty-two other great citizens as members of the Naval Advisory Board, Mr. Daniels has certainly performed a useful act to his country, and even his most severe critics are praising his accomplishment.

Classifications of Public Lands

Secretary Lane announces that 300,000 acres of public lands have been temporarily withdrawn from entry for the purpose of classification as to the value of the land for coal, and after such classification will be restored. About 46,000 acres of this land is in Montana and 257,000 acres are in New Mexico. During August about 30,000 acres were restored from coal withdrawals in Utah, 22,000 acres in Oregon, and 13,000 acres in New Mexico. 35,000 acres of oil lands in Wyoming were withdrawn, and 5,500 acres in various states and in Alaska were placed in water-power reserves. 1,200 acres in Idaho were eliminated from water-power reserves.

Uncle Sam's Reading Circle

The Bureau of Education at Washington has organized the National Reading Circle, and any one can join. There is no charge

Suggestions for Reading

The Bureau of Education asserts that "the best and most complete expression of the ideals and tendencies of any people at any time is to be found in their literature. For modern times the expression is to be found most often and most fully in their great works of fiction." Books in the courses recommended for the National Reading Circle are: Tolstoy's "Anna Karenina" which is Russia's contribution; Poland gives Sienkiewicz "With Fire and Sword"; "The Three Musketeers"; "Les Miserables"; and "Pere Gerroit" are the representatives of France; England's additions to the list include "Adam Bede," "Clarissa Harlowe," "David Copperfield," "Guy Mannering," "Henry Esmond," "2 Ivanhoe," "Lorna Doone," "The Oredal of Richard Fernald," "Pride and Prejudice," "Robinson Crusoe," "Tale of Two Cities," "Cloister and the Hearth," "Vanity Fair," "Vicars of Wakefield," and "Romola"; while the United States is represented by "Kidnapped," "The Luck of Roaring Camp," "The Last of the Mohicans," "The Scarlet Letter," "The Pilot," and "Treasure Island." The comparative shortage of American books on the list is explained by the fact that an entire subdivision is devoted to American literature, this course including the study of such works as "The Autocrat of the Breakfast Table," "Ben Hur," "The Four Million," "Tom Sawyer," "Huckleberry Finn," "The Man Without a Country," "The Sketch Book," "Mast."

Organized Labor in New Jersey

By refusing to endorse votes for woman showed itself perfectly pleased with its record as guardian of the labor interests by means of the ballot. It virtually said to the eight million wage earning women, "Stand aside, ladies, we are equal to this job." Wage earning men everywhere concede the valiant service of women in times of strikes. That women could and would render the same service in politics the wage earner does not appreciate. If he did, the failure of organized labor in New Jersey to stand back of the woman suffrage amendment would be unthinkable.

Organized Labor in New Jersey

"Suffrage in Kansas has broadened woman's views of social life; centered her thought on home and its needs; has given a new and beneficial influence in the life of the state. Kansas will never go back to the rule of all the people by part of the people." Governor Capper.

AMONG THE SUFFRAGISTS

The law providing for a nine hour day and a minimum wage for women has been declared unconstitutional in Arkansas by Judge Paul Little of the Arkansas circuit court. If Arkansas were an equal suffrage state, the anti would issue a special tract telling the news.

The Supreme Court of North Carolina

has declared that a woman can't be a notary public because it is a public office and therefore only open to voters. Several members of the legislature have held the office unopposed under a state constitution which declares that no person can hold two offices. This is the way the legal mind works: Notary Public is a public office if a woman wants it but it isn't if a man wants it. And another proof is given that woman will never be equal to man in the sight of the law until she is his equal at the ballot box.

"I should think that the miseries of the war would make the suffragists forget the vote for a while and that helping Belgium would seem an imperative duty to them."

said an up-state woman to Mrs. Blatch during the recent tour through New York with the torch. "On the contrary," answered Mrs. Blatch, "the miseries of the war are an added reason for vote for women. Why, the schoolhouses that were condemned as unfit for use when I lived in England thirty years ago are now used for children and the better schools are used for military purposes. "On the children of America will fall the burden of holding up the civilization of the world. Because children's interests are being sacrificed in Europe, they must be all the more safeguarded here, and to make sure of this, the mother must be inside—not outside—the government."

THE HOUSEKEEPER'S PROBLEM

The housekeeper, if she be a mother of a large family, is weighed down with worries and cares. When a girl becomes a woman, when a woman passes through the changes of middle life, are the three periods of life, when health and strength are most needed to withstand the pain and distress often caused by severe organic disturbances.

Binghamton, N. Y.—"Soon after my first child was born, I became very thin, pale, weak and nervous, and could scarcely drag myself around or do my ordinary housework. My husband insisted on my trying Doctor Pierce's remedies because his relatives had used them, so I bought some of the 'Favorite Prescription' using four bottles in all. Before the first bottle was finished I felt better and noticed a gradual improvement—found myself gaining flesh. I soon regained full strength. I am now 52 years old and passed the critical stage of life easily and am well and strong now. Am the grandmother of three children."—Mrs. JOHN HORNBECK, 30 Milford Street, Binghamton, N. Y.

If you will pay the mailing charges, Doctor Pierce will send you his cloth bound book of over 1000 pages, newly revised with color plates and illustrations. Everyone should read and have it in case of accident or sickness in the home. Treats of so many subjects in such an interesting manner that knowledge of the human body is quickly and easily attained by all who read the book. Send 30 cents in stamps for mailing charges to Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., and enclose this notice.

THE COON GETS THE CORN

The above expression is now being heard in thousands of homes, offices and stores from happy men and women who have been relieved of the torture and suffering of painful, aching-corns. Ask them to explain and they say, "If you have corns get a package of Raccoon Plasters from your dealer as we did and the Coon will get the corn." Sample free. Address, Raccoon, LeRoy, N. Y. 37

EVERY HOME NEEDS A FAITHFUL COUGH AND COLD-REMEDY

When seasons change and colds appear—when you first detect a cold after sitting next to one who has sneezed, then it is that a tried and tested remedy should be faithfully used. "I never wrote a testimonial before, but I know positively that for myself and family, Dr. King's New Discovery is the best cough remedy we ever used and we have tried them all." 50c and \$1.00.—Advertisement.
