The Man ON THE JOB

is the man who accomplishes; the man who can afford to live well; the man who accumulates a competence for old age comforts.

In a large majority of cases this man grew to be "The Man on the Job" through starting a Bank Account in a small way and keeping the account growing until his Bank Credit, together with his accumulations, furnished him a sum sufficient for the making of an investment.

HOSEY, COWBOY PARSON, DIES

The Rev. Isaac Hosey, the cowboy preacher of Dewey, Okla., is dead. Dr. Hosey was seven feet tall and was a riding and walking arsenal. He never laid aside the six-shooter which he put on in the early days of the territory.

Hosey used to lay the weapon beside the Bible when he preached and those who had no respect for religion had deep respect for the revolver and Hosey's ability to use it.

Distant Neptune.

The period of man's whole history is not sufficient for an express train to traverse half the distance to Neptune from the earth. Thought wearies and fails in seeking to grasp such distances. It can scarcely comprehend 1,000,000 miles, and here are thousands of them. When we stand on that, the outermost of the planets, the very last sentinel of the outposts of the King, the very sun grows dim and small in the distance.

Innocent Girl.

Sarcastic Father—Julia, that young man Smily has been here three nights in succession, and it has been nearly midnight when he left. Hadn't you better invite him to bring his trunk and make his home with us?

Innocent Daughter—Oh, papa! May I? It was just what he wanted, but he was too bashful to ask you. He'll be delighted when I tell him this evening.

Why the Lover Looks at the Fire.

When a young Savoyard goes wooing he pays considerably more attention to the admired one's fire than to her face. If she leaves the billets of wood undisturbed on the hearth it is a sign that he is welcome, but should she place one of the blazing fagots in an upright position against the others it is a hint for him to take his departure.
