WHY YOU ARE NERVOUS
 The nervous system is the brain of the human body.
 In perfect health we hardly realize we have a network of nerves. But when health is ebbing, when strange feelings, the same nervous system gives us alarm in headaches, tiredness, changing sleep, irritability and unless corrected, leads straight to a breakdown.
 To correct nervousness, Scott's Emulsion is exactly what you should take; the rich nutriment gets into the blood and rich blood feeds the tiny nerve-cells which the whole system responds to by returning tonic force. It is free from alcohol.
