Luxurious Table Linens

That Will Worthily Grace The Thanksgiving Table

The National Thanksgiving Feast Day is near at hand. The Old World is in the flames of War, while America enjoys Peace and Prosperity. This will be one of the most notable Thanksgiving Anniversaries in American history.

The thoughtful housekeeper is already thinking about the Turkey. Soon she will provide for the Mince and Pumpkin Pies. She will have the potatoes mashed and beaten to a foam, as a delicious vehicle for the rich brown gravy—for the "Thanksgiving Dinner" is the pride of her whole year—and perhaps members of the family are to COME HOME for the feast.

BUT, ARE THE TABLE CLOTH AND NAPKINS PROVIDED?

Is the large Banquet Cloth big enough? Is it rich, lustrous, satiny, to give a gleaming radiance to the festal board?

The whole FINISH of the sumptuous Dinner depends on the table settings, and the Table Cloth and Napkins are most important of all.

EVERY INTELLIGENT PERSON SHOULD LEARN HOW TO WRITE!

More than a million people are employed in the publishing business in the United States, and all of them "had to begin." They are dropping out every day, and some one must take their place. There must be writers for

The Newspapers Magazines Moving Pictures

They pay more for the same class of service than most of the professions. With a table, a chair, paper and a typewriter you can begin now; and you do not need to give up your present occupation or employment. Even if you do not wish to take up journalism as a profession, there is no better mental training than learning to write.

The man or woman who writes is automatically thrown in touch with the big people who are shaping the destiny of the state and the nation, and with the big things that are taking place in the new development of the country.

The fundamentals are carefully and simply arranged in our Correspondence Course of Instruction. A Washington correspondent, who has written for every class of publications during the past twenty-five years, has arranged the work, and is in charge of the course. Money back if you are not satisfied.

A little timely planning, a little attention to the ads, a little early shopping—and your gift-making this year will be entirely a pleasure to you.

Three courses are open to the small merchant to advertise in the best local newspaper so progressively, so interestingly, that his little store will grow big; to confine his advertising to the unusual "schemes," and thus to remain little with ever-diminishing chances of survival; or to fail to advertise at all, and thus fail to build up a permanent store.
