

BARBOCK & DAVIDSON

Nos. 114 to 116 MAIN STREET, HORNELL, N. Y.

America's Finest Dress Goods and Silks

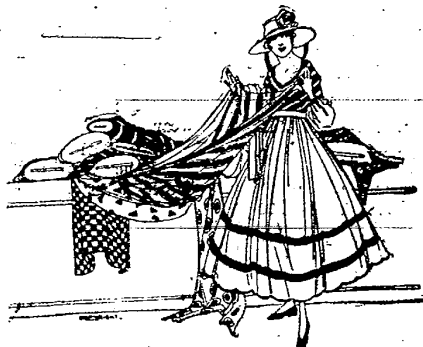

Holidays are near. Everyone appreciates most the practical gift, the gift of real value and utility. What's more acceptable than material for a waist, a dress, a suit or a coat? We have today in spite of all obstacles, and they have been many, the finest collection of weaves, colors and designs in both Silk and Wool Materials in our history. This condition exists with us simply because of the fact that we bought early and in quantity.

PREPAREDNESS

Our Preparedness can save you many dollars and cents in your Holiday and Winter Purchases. We simply advise you as a purely practical and business proposition to anticipate now your wants along these lines for six months or even more. We could go at great lengths in giving you positive evidence of the real necessity for so doing. It's unnecessary to mention the Dye Condition now existing and their effects on future prices to the purchaser. Price is not the only great issue. Fast colors is another. Those you must have if you want value received. Aniline Dyes alone can give you this. Vegetable dyes will be generally used next year by a large percentage of the mills. We have by buying early insured ours for you against that event for some time. The yarns entering into the construction of our finest wools and from Australia and the East. These yarns American mills cannot now import. Only the mill-owners wisely stocked on these can give us these materials. We represent for this section several of the largest American mills and each one notified us of the situation and advised us to prepare by purchasing in the early Fall against the immediate future great advance. This advice we have followed. We pass this wise advice on to you. Anticipate your wants now. This will realize you a large and sound interest on your investment.

BROADCLOTHS

We have just made an expedition of Forstmann and Kaufman's famous line of these cloths. As we have said we represent this line for this section. Finest made in America. Everyone permanent aniline dyed—everyone permanent in finish and all in extreme width. Lowest 1915 price. Ask to see them. **PREPARE.**

SILKS

The Dye situation applies to Silks also. To date all are best dyes and at old prices. Main line Crepe de Chine, Silk Poplins, Messalines and Fancies. Largest lines we have even shown and the best.

TAFFETAS were contracted for early, but these will shortly show missing colors. We advise placing orders now.

SILK POPLINS are in well assorted season's colors in three grades and are splendid values.

MESSALINES in two or three grades that we purchased last Spring are finer and heavier than could be had at the same price if purchased now.

CRÈPE DE CHINES—This general favorite for fine wear we have featured because of early purchasing and our ability to give splendid values and a wide range of colors.

There is not one weak link in this showing. Place orders now especially on blues, Copens, browns and greens. Dark dyes are going first.

SPECIALS FOR ONE WEEK

- One piece 56-inch All Wool Black Crepe Diagonal, regular price \$1.75 **Special \$1.33 yard**

WORSTEDS and WOOLENS

The Garfield Worsted Mills produce one of the broadest and best line of Suitings, Serges, Gabardines, Epingles, and other of the best sellers of any mill in this country. Again we wish to say that we have prepared against the future on these lines. There is no loading of their fabrics. **PREPARE.**
