A store bargain has an advertising value when it's well advertised.

HAVE YOU WEAK LUNGS?

Do colds settle on your chest or is your bronchial tubes? Do coughs hang on, or are you subject to throat troubles? Such troubles should have immediate treatment with the strengthening powers of Scott's Emulsion to guard against consumption which so easily follows. Scott's Emulsion contains pure cod liver oil which peculiarly strengthens the respiratory tract and improves the quality of the blood; the glycerine in it soothes and heals the tender membranes of the throat. Scott's is prescribed by the best specialists. You can get it at any drug store. Scott & Bowne, Bloomfield, N. J.

A prospering store makes the most of its advertising material—its service, its price-concessions, its exclusive stocks. A store that does not have plenty of "advertising material" will, of course, not do much advertising — nor much prospering.

EVERY INTELLIGENT PERSON SHOULD LEARN HOW TO WRITE!

More than a million people are employed in the publishing business in the United States, and all of them "had to begin." They are dropping out every day, and some one must take their place. There must be writers for

The Newspapers Magazines Moving Pictures

They pay more for the same class of service than most of the professions. With a table, a chair, paper and a typewriter you can begin now; and you do not need to give up your present occupation or employment. Even if you do not wish to take up journalism as a profession, there is no better mental training than learning to write.

The man or woman who writes automatically thrown in touch with the big people who are shaping the destiny of the state and the nation, and with the big things that are taking place in the new development of the country.

The fundamentals are carefully and simply arranged in our Correspondence Course of Instruction. A Washington correspondent, who has written for every class of publications during the past twenty-five years, has arranged the work, and is in charge of the course. Money back if you are not satisfied.

To "pay no attention" to the want ads is to pay unnecessary and vexing attention to many tasks which they would simplify for you.
