The well advertised store is necessarily a partly-new store every day. Changes take place in stocks quickly—the new crowd out the old at every turn.

### OLDER BUT STRONGER

To be healthy at seventy, prepare at forty, is sound advice because in the strength of middle life we too often neglect that neglected cold, or careless treatment of slight aches and pains, simply undermine strength and bring chronic weakness for later years.

To be stronger when older, keep your blood pure and rich and active with the strength-building and blood-nourishing properties of Scott's Emulsion which is a food, a tonic and a medicine to keep your blood rich, alleviate rheumatism and avoid sickness. No alcohol in Scott's.  
Scott & Bowne, Bloomfield, N. J.

A prospering store makes the most of its advertising material—its service, its price-concessions, its exclusive stocks. A store that does not have plenty of "advertising material" will, of course, not do much advertising—nor much prospering.

#### EVERY INTELLIGENT PERSON SHOULD LEARN HOW TO WRITE!

More than a million people employed in the publishing business in the United States, and all of them "had to begin." They are dropping out every day, and some one must take their place. There must be writers for

They pay more for the same class of service than most of the professions. With a table, a chair, paper and a typewriter you can begin now; and you do not need to give up your present occupation or employment. Even if you do not wish to take up journalism as a profession, there is no better mental training than learning to write.

The man or woman who writes automatically thrown in touch with the big people who are shaping the destiny of the state and the nation, and with the big things that are taking place in the new development of the country.

The fundamentals are carefully and simply arranged in our Correspondence Course of Instruction. A Washington correspondent, who has written for every class of publications during the past twenty-five years, has arranged the work, and is in charge of the course. Money back if you are not satisfied.

## "Safety First"

"B. & M." Shoes afford real protection against winter storms, sleet, snow and ice. Remember, colds this time of the year are not only disagreeable, but dangerous, and its better to prevent them than to try to cure them.

Put on a pair of sturdy B. & M. Boots—you will be dry shod as well as stylishly shod.

Why not "slip on" a pair today and thus "slip out" of the chance of contracting a severe cold or pneumonia?
