THE FARMER'S CREED

I believe that soil likes to eat as well as its owner, and ought herefore, to be liberally fed.

I believe in large crops which leave the land better than they found it—making the farmer and the farm both glad at once.

I believe in going to the bottom of things and, therefore, in deep plowing and enough of it. All the better with a subsoil plow.

I believe that every farm should own a good farmer.

I believe that the best fertilizer for any soil is a spirit of industry enterprise and intelligence. Without this, lime and gypsum, bones and green manure, marl and guano, will be of little use.

I believe in good fences, good barns, good farmhouses, good stock, good orchards, and children enough to gather the fruit.

I believe in a clean kitchen, a neat wife in it, a spinning-wheel, a clean cupboard a clean dairy and a clean conscience.—Henry Ward Beecher.

AUCTION-SALE

O. F. Gorman, administrator of the estate of Anna Gorman, is advertising an auction sale, at the farm home in Duffy Holloy, Tuesday, January 25th, 1916. Seven teen cows and four horses are included and a large amount of farming tools will be sold.

Our "B. B. B." column always does the business.

WHAT CATARRH IS

It has been said that every third person has catarrh in some form.

Science has shown that nasal catarrh often indicates a general weakness of the body; and local treatments in the form of snuffs and vapors do little, if any good.

To correct catarrh you should treat the cause by enriching your blood with the oil-food in Scott's Emulsion which is a medicinal food and a building-tonic, free from alcohol or any harmful drugs. Try it.
Scott & Bowne, Bloomfield, N. J.

EVERY INTELLIGENT PERSON SHOULD LEARN HOW TO WRITE!

More than a million people are employed in the publishing business in the United States, and all of them "had to begin." They are dropping out every day, and some one must take their place. There must be writers for

The Newspapers Magazines Moving Pictures

They pay more for the same class of service than most of the professions. With a table, a chair, paper and a typewriter you can begin now; and you do not need to give up your present occupation or employment. Even if you do not wish to take up journalism as a profession, there is no better mental training than learning to write.

The man or woman who writes is automatically thrown in touch with the best people who are shaping the destiny of the state and the nation, and with the big things that are taking place in the new development of the country.

The fundamentals are carefully and simply arranged in our Correspondence Course of Instruction. A Washington correspondent, who has written for every class of publications during the past twenty-five years, has arranged the work, and is in charge of the course. Money back if you are not satisfied.

Write to-day for information.

"Safety First"

"B. & M." Shoes afford real protection against winter storms, sleet, snow and ice. Remember, colds this time of the year are not only disagreeable, but dangerous, and its better to prevent them than to try to cure them.

Put on a pair of sturdy B. & M. Boots—you will be dry-shod as well as stylishly shod.

Why not "slip on" a pair today and thus "slip out" of the chance of contracting a severe cold or pneumonia?

As She is Spoke In Lunnon.

The city clerk has a luncheon lingo all his own, writes a correspondent. Thus, a cafe au lait is commonly known as a "white baby," coffee without milk, a "small black." If you would regale yourself with two poached eggs on toast ask for "Adam and Eve on a raft." If you desire them scrambled and hank-er after being considered "smart" tersely add, "Wreck 'em," thereby greatly impressing the diminutive junior clerk at the next table.—London Standard.
