ANY PERSON CAN BUY ... HARDWARE ...

But it is not everyone who knows whether it is good or bad until after they have used it. And right there is just a small portion of the wisdom of buying hardware at our store. We know that most people must rely up on what we tell them about the quality of the goods, hence we make it a principle in business never to sell an article that we do not know to be O. K. in every respect. It is the safe way and our way.

Isn't there something you need in making life more comfortable during the winter months? Undoubtedly we have it and can sell it to you at a very close price. No house in this section ever undersells us on guaranteed hardware.
