### OUR DUTY IN MERICO.

It is ipponceivable that any true American could want war for war's sake. We are not that kind of a people, and our intersituation in Mexico which is calculated to exhaust the patience any person with red blood in his veins.

It is time for us to stop quibbing and do some real acting. Our states bordering upon Mexico are raided with impunity outlaws and cutthroats who infest the northern section that country. Our citizens are mardered or outranged and their property stolen or destroyed. The defacto government of Mexico Despite Efforts of Secret Service r is not only powerless to prevent these forays, but we have every reason for the belief that the authorities are making no effort! ### As The Editor Sees It.

There are many things we could do, and ought to do, for the good of this town and the adjacent farming community. There No danger of this country ever are many things which if we would do them, would give us better town and a better community. For instance:

We might improve and enlarge and broaden our education [1] Can't we have a new crisis or system. What we have is good but it could be made better and two?
