

Make it a Day to Remember

Decoration Day is the first real holiday of summer. Everybody plans for an outing of some kind or other. And it's perfectly natural to think of new clothes in connection with a holiday.

It's just as natural to think of our store in connection with clothes. Real smart styles for the young man, and more conservative ideas for the older ones—that's our policy.

Everyone to his taste. There's a suit for every man—a blue, a grey or a mixture. The price pleases, too, for even the most critical fellow can find what he wants at \$12, \$15, \$18 or \$20.

Our other furnishings are right up to the standard—quality first.

KNOX STRAW HATS

There may be some fascination about a "flyer" in stocks, but what fun is there in taking a gamble on hats? No thrill—no compensation—you simply lose out! Men wise in dress, buy

KNOX HATS

and thereby make doubly sure of getting the utmost for their money in quality, exclusive style and lasting appearance. A "KNOX" Straw is irrefragably correct, unquestionably right.

WHAT THE KIDNEYS DO

Their Unceasing Work Keeps Us Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some parts of this impure matter is left in the blood. This brings on many diseases and symptoms— which vary widely but may include pain in the back, headache, nervousness, hot, dry skin, rheumatic pains, gout, gravel disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposit in the urine, etc. But if you keep the filters right the danger is overcome. Doan's Kidney Pills have proven an effective kidney medicine.

W. C. Clark, 290 W. State St., Wellsville, N. Y., says: "I suffered severely from backache. I was in pain after I stooped or did any heavy lifting and felt miserable in every way. Doan's Kidney Pills cured me completely improving my health."

"GINGLES JINGLES"

DETERMINATION.

It was the great Napoleon who has so truly said, Determination is the thing that gets you in ahead. Just say you will and then resolve that you are sure you can. For it's determination that will make the worthwhile man. Don't wait for someone else to come and shove you up the hill, for you have motive power galore, you only lack the will. A try may teach you where you're at. You may be growing stale. The wind you'll find is blowing right for those who care to sail. So call yourself in on the rug and give yourself a talk, and say to your old sleepy self, what right have you to halt. It's time for you to do a stunt, a something yet undone. To face the world and hustle you will find both work and fun. For life is always in action, stop the motion and you check. So beat it out from down below, start for the upper deck. And get a focus on the world, that's sane and not a frost. Work out a blue print, follow it so you will not get lost. Determination back of this. A will to do or die. And "Hard Work" is your battle cry.
