Is there any better way to earn money than to study the ads for opportunities to save it in your buying?

ACCOUNTING FOR SALT LAKE

Fact That Well-Known Body of Water Has No Outlet Is Reason Why It Is Saline.

Great Salt Lake has no outlet. Jordan river, which enters it from the south, is the outlet of Utah lake. Bear river, coming from the north, carries the outflow from Bear lake. The waters of Utah and Bear lakes and of Jordan and Bear river are fresh, and so is the water of Weber river, the third great tributary of Great Salt lake, but the lake into which the three rivers flow is saline. It is saline because it has no outlet. The fresh waters of the rivers contain some saline matter, but the quantity is too small to be discovered by taste.

As stated by the chemist, in parts per million, the quantity seems minute, but when account is taken of the total volume of water brought by the streams to the lake in a year their burden of saline matter is found to be really great, amounting annually to more than five hundred thousand tons.

Year by year and century by century the water which they pour into the lake is evaporated, but the dissolved solids cannot escape in that way and therefore remain. They have accumulated until the lake water is approximately saturated, holding nearly as much mineral matter as it can retain in solution. The lake contains over five billion tons of common salt and nine hundred million tons of Glauber salt (sodium sulphate) as well as other mineral matter.

SHE KNEW.

"Say, mamma, what is 'frenzied finance'?"
"Just watch your father figuring up my dress and hat bills."

Here's the Backbone

...of the...

Chautauqua

It's in the lecture numbers. Music and entertainment there will be and a plenty of it. But the MEAT is in the five lectures. Talks like these are pace setters and thought stimulators. They make a man grow overnight. They lift him up as by his boot straps. They set him thinking in new trains of thought. They broaden his horizon and give him a bigger look at things.

Each day of the Chautauqua brings its special message in form of a lecture. We'll look at four of the five.

Professor E. J. Ward

of the Federal Bureau of Education at Washington is the founder of the social center movement. And what is that? It is a plan of getting neighbors together to talk over things that are best for the community and when they have settled on something to go out and make it a fact. It means the development of a stronger community sentiment. It is a movement that has the unstinted indorsement of two ex-presidents, Roosevelt and Taft, and of President Wilson. It is sweeping the nation. Hear Ward on the second day. He'll tell you all about it.

Judge Lee S. Estelle

the great juvenile court judge from Omaha, the man who established one of the earliest special courts for juvenile offenders and has saved thousands of "kiddies" from lives of crime. He has built a Child Saving Institution and has taken many a youngster out of the gutter and set him on his feet and seen him grow into useful citizenship. His lecture he calls "The Law, the Lass and the Lad." Hear him on the third night.

Dr. George P. Bible

It is the uplift and the inspiration in the Chautauqua that has carried it into more than 3,000 communities in ten years. No boy or girl will amount to anything unless they have a powerful INCENTIVE. And it is these great, powerful inspirational lectures that have stirred thousands to greater efforts. On the fourth day.

Lorenzo Zwickey

on art, a lecture on home decoration and the choice of colors effectively illustrated with the use of crayon and a large easel. An electric lighting device adds much to the interest of Mr. Zwickey's art entertainment Fifth day.

The first day lecturer is announced under a special heading.

* BUY A SEASON TICKET *

It reduces the cost more than half. Get it of the committee before the tent goes up. It will cost less now than later. Every member of your family should have one. And remember, besides the lectures, there is a whole host of musical numbers!

MARY PICKFORD

As a Prim Little Miss in a "Girl of Yesterday," Auditorium, Wednesday Evening.

In the film "Little Mary" is Jane, a girl in very moderate circumstances, who has never attempted to keep abreast of the times in the matter of modish apparel. Nevertheless her charming grace appeals to the discerning eye of Stanley Hudson, her next door neighbor, and the catch of the season.
