

# BABCOCK & DAVIDSON

114-118 MAIN STREET, HORNELL NEW YORK

**We Possess An Immense Stock Of Carpets And Rugs Also A Carload Of Linoleum Bought Last Fall**

Since then prices have advanced by leaps and bounds, so that now every yard of Carpet and Linoleum and every Rug we own is worth from 10% to 50% more than what we paid for it.

This means a great deal to us, but more to you. To us it means that we have once more proved our merchandising superiority by foreseeing higher prices, buying heavily, and consequently putting ourselves in a position to sell below the present market prices.

To you it means that the present high prices will not affect you, since you can come to Babcock & Davidson's Carpet Department and reap the benefits of their merchandising superiority and quick ready cash.

**I AM A WHITTALL RUG**

I am the down trodden of the earth.

I spring back with tireless resiliency.

To me the family, the business man, the professional man who prizes and values comfort, warmth, economy, beauty, color, design, cleanliness - I am a necessity. Nothing excepting metal, stone or wood has the strength, endurance, and wear resisting qualities that I possess. Homes, Offices, Hotels, Institutions, Railroads, Public Buildings and almost all structures built by man find me for the more complete and quicker enjoyment of the luxuries of life - Inventive Genius waved its wand; I came.

I, who am tireless, sleepless, eat nothing, drink nothing, who feel not the broom, the rod, the sweep, the vacuum cleaner, nor suffer from the heat of the cold.

I, who ask for no mercy, expect no kindness, count the day and night as one, who will grow young from the dawn to the full moon with my patency of beauty, design and color, I whom age can not wither or weaken, illness pain nor sun fade.

I am the groundwork for the furnishings of the home, suggesting music, the drama, and books. I furnish food for the imagination.

I bring into action that which gives food and livelihood to the world I supply the sinews of war to all nations.

I, from the backs of the millions of sheep of Asia, Asia Minor, Australia, South America and Europe take my wool.

I, from the thousands of acres of the tilled lands of Ireland take the flax for my linen.

I send men into the bowels of the earth for the gorgeous hues in which I am arrayed, which the culture of Germany, the science of England and France has made possible.

I adapt my design and colors from the Masters of the World, Ancient and Modern, Oriental and Occidental.

I am essential to your Railroad trains. To you with the wealth that is developed by annihilating time and space come I, saving time and money, eliminating uncertainty.

Various imitators have I, but no competitors. The brains of thousands of inventors, designers, dyers and weavers have seethed, dreamed, contrived, thought so as to bring me to my present perfection.

I am the maximum value with the minimum cost.

overflowed their banks and ran over the fields and Rock Creek road, tearing trenches in them from two to ten feet deep. The main creek now runs in the road. Water flowed through Chas. Warner's barn, eighteen inches deep in the basement. After the water had gone down the mud was about 5 inches deep. Many people were up at midnight watching the devastating work of the flood. Bridges were taken out, machinery and wagons carried away and the telephone lines are all down.

**HAVE YOU WEAK LUNGS?**

Do colds settle on your chest or your bronchial tubes? Do coughs hang on, or are you subject to throat troubles?

Such troubles should have immediate treatment with the strengthening power of Scott's Emulsion to guard against consumption which so easily follows.

Scott's Emulsion contains pure cod liver oil which peculiarly strengthens the respiratory tract and improves the quality of the blood; the glycerine in it soothes and heals the tender membranes of the throat. Scott's is prescribed by the best specialists. You can get it at any drug store.

**PLAYING THE FIDDLE.**

It's nice to fiddle, right you should—to play the fiddle, does you good, but if you play when you should work, you waste your time and learn to shirk; but when you're sure you've done your best and know that you deserve a rest, though folks complain as many will, and say that you're a worthless fiddler; just grab your fiddle, play a tune, and you will find out very soon that you'll feel cheerful, bright and good, to shake the blues will be a pud; but when at work forget your play, and put your fiddle right away. Apply yourself with all your soul. Aim high and strive to reach your goal. Work hard for that's the way to win; the job's half done, when you begin, but when all in and tired out, don't sit around and whine and doubt. Just get your fiddle by the gills and fill your carcase full of thrills. If you can't fiddle, you can walk, or read a book or have a talk. The fiddles do not all have strings; they're hobbies; that with good cheer rings. The fiddling spirit is our need, that from our task we can be freed. Old Nero fiddled, which was sound, while Romeo was burning to the ground. He did not fret, he did not stew, as you or I no doubt would do. He was no fire department guy, so simply passed the matter by. The man who fiddles never sours, but fiddles during fiddling hours.
