233 YEARS AGO TO DAY
William Penn Completed His Famous Treaty
With the Indians and Acquired Possession of What is Now Pennsylvania

Every man and woman of forethought will see the wisdom of acquiring possessions. None of us can hope to own enormous tracts of land, yet nearly every person may possess the title to some property by carefully and economically managing their affairs, and opening an account with this bank.

HAZEL DAWN
A Sensation, "The Masqueraders"
Wednesday Evening

It is seldom that an actress who has gained an international reputation as a musical comedy star and who has never appeared before the footlights in anything but musical comedy roles, could suddenly leap into popular favor as a motion picture actress. This remarkable feat has been accomplished by Hazel Dawn, of "The Pink Lady" fame, under the guidance of the Famous Players Film Company.

Deprived of her usual, heretofore, and her wonderful dancing, Hazel Dawn, by her personality, her rare beauty and her remarkable histrionic ability, has captured the motion picture public with the same ease with which she brought Broadway to her feet amid the glare of the footlights and the clash of the orchestra.

Miss Dawn followed Bronson Howard's "One of Our Girls," her debut as a photo-player by the picturization of the celebrated comedy, "Niobe," in which she attained a great personal triumph in the role of the statue that was brought to life. It was purely a comedy role that did not bring into play her emotional powers. It did establish her, however, as a motion picture comedienne.

In "The Masqueraders," in which Miss Dawn has been starred by the Famous Players Film Company, the beautiful musical comedy enchantment will more than prove her claim to recognition as one of the foremost dramatic actresses on the screen. Miss Dawn appears as Dulcie Larrondie, a young beauty who becomes a barmaid, marries a baronet who proves to be a despicable character, and eventually finds the happiness which is her due in the man who has loved her since she was a small child.

Dulcie is the supreme test of Miss Dawn's ability as an actress. Hitherto she has won her audiences by her beauty, her personal charm, her bewitching smile and her innate cleverness. In her latest role, however, she must add to these qualifications, interpretative genius of the most potent quality. That she has done this, everyone will agree who sees her in the Paramount Picture.

L. E. DAVIS ACCUSED OF ROBBERING THE BANK

Lewis H. Davis, who for seven years served as cashier of the Citizens' National Bank, is in jail at Belmont, charged with robbing the bank. The defalcation was discovered while he was in New York attending the Masonic Convention in May. On his return he was charged with the crime and admitted the facts. His resignation was accepted and the company that gave bonds for his honesty was notified. Thursday an agent of the company arrived in this city. It was learned that Davis was at his cottage on Silver Lake. Officer Ellsworth telephoned to him to meet the doctor in Hornell Friday. Ellsworth and the bonding company agent went to Hornell Friday and when Davis appeared placed him under arrest. He was brought to this city Saturday morning and taken to Belmont that evening and held in jail. As yet it is not known to what amount of the defalcation. Davis admits \$1254. The bank officials claim that the amount will approach \$1000. The stating it seems he has been going on ever since 1912.

It is claimed he has been living beyond his means. He claims he used the money to pay old debts owing by him when he came here. It is a sad case. Davis has an interesting family of four children, two boys and two girls, nearly grown. Bonding companies never show any mercy; they make examples of every delinquent. Davis is doubtless in for the full extent of the law. The bank is said to be fully protected. —Wellsville Democrat.

"GINGLES JINGLES"
SMILES.

To lubricate the wheels of fate there's nothing like a smile. It makes the going easy and put up with all the while. A smiling face will do more good than a dozen of gold and silver. It puts the color in cheekbones and the life in the eyes. By smiling you will catch the light and smile will take away all the wrinkles from your face. It shows no lights but bright and clear on days. Just swing in like a bell and the blues and sorrows and don't complain. The clouds you'll find will clear away and sunshine follow rain. Not only will it do you good to come through with a smile, but all you come in contact with will imitate your style, and thus true happiness you gain, but in no other way can you be truly happy, so just try it for a day, and note the change it makes in you and in the ones you meet and watch the grouch like in to clear and discontent retreat. Success is smiles commercialized, they get you by fair, so join the brotherhood of smiles and Mason jar *Levin K. Single* your care.

RAILROAD ITS EMPLOYEES

Following Letter Has Been Sent by the Erie to Individuals and Employes Engaged in Trade and Yard Service.

New York, June 23, 1916.

I support the efforts of the organization representing men, train and yard service of the United States, you are to vote upon the demand for an eight-hour day, with a half for overtime. It is found by careful investigation that to comply with this demand in freight and yard service will add to the payrolls of the Railroad Company approximately two million three hundred thousand dollars per year, which is an increase of 10 per cent. This is not a guess, reached by applying the rate of the demand to the present operation. The vote of the men on the Railroad will determine whether or not they bind themselves to strike if necessary to force these demands. If you would the men in service go in insisting upon a demand for the moving of local to the Erie Railroad not concerted throughout the States?

Do you think it is fair to the Railroad Company for you to insist upon this unreasonable demand at this time, when the condition of the road has not been fully established and not for at least two years? Do you think it is wise to insist upon demands which, if granted, would stop all improvement work under way, or hereafter undertaken?

Do you realize the advantage to yourself as well as to the Company as a result of movements made and to be made to keep the Erie Railroad position to hold its own in the railroad with its competitors?

Do you realize that the wages and train service at present time are at the rate of \$13.177.02 per year, or 10 per cent higher than the wages ten years ago, and that in this period of ten years you have received a penny in dividends from the Erie Railroad to its stockholders?

Do you so dissatisfied with present wages that you are to join in a strike to increase?

Do you realize that if a strike is called the Government will take charge of the railroad and operate them, if necessary, and save the public loss and inconvenience?

Do you prefer to work for a government under its discipline and regulation than to work for an American citizen?

You are asked to consider these questions and answer by your vote. Do you what becomes of you upon which you are to vote? Do you have an interest in that you are going to be paid?

The management feels confident that all of these questions will be considered wisely by the men in the class because of its confidence in their good judgment and their spirit of fairness.

Do you effort to improve your condition is commensurate and consistent with your position, but we are not
