

Hundred Make Money

Is the title of a book that has been much advertised. The other day both the author and publisher were in court in a petition in bankruptcy. There are a hundred ways, perhaps a thousand, of making money, but there is only ONE way of accumulating money, and that is by **SAVING!** Two men may make a thousand dollars each this week and next Saturday night one of them will have a bank book with a thousand dollar credit and the other fellow an automobile (and a headache). Two men in the same factory or workshop get their pay envelope with exactly the same amount of money Saturday night. Monday morning one has added from two to five dollars to his savings account and the other faces the same hopeless problem of provision that he has faced all his life.

What are you doing with **YOUR EARNINGS?** The thing the **BURROWS NATIONAL BANK** wants to discuss with you is not the hundred ways of making money but the **ONE** way of saving money. (Copyrighted)

CHARLES CHERRY

In the Famous Play, "The Mummy and The Humming-Bird"

In the adaptation of the celebrated dramatic success, "The Mummy and the Humming-bird," the Famous Players Film Co. introduces another famous Frohman star, Charles Cherry, to the motion picture public. The drama is one of those rare plays which permits an actor of real ability to display the full force of his histrionic power. "The Mummy and the Humming-bird" recounts the tragedy of a neglected wife who seeks amusement in the company of an unscrupulous Italian novelist, Signor D'Orelli, known as the mummy-bird who seeks first-hand information of the experiences and emotions of which he writes. Unfortunately his next story is to concern the wrecking of a home. The reawakening of the unsuspecting husband, the revenge which a former victim of the wily schemer wreaks upon him, and the saving of the innocent woman, are fraught with thrills and dramatic suspense in abundance.
