VACATIONS

A News reader has requested our opinion of vacations, editorially. Here it is:

Vacation time is here again and in full swing. Every one tries to persuade himself or herself to believe that they are entitled to, as they argue to themselves, a rest from the toils and perplexities of life for at least a few weeks in the "Good Old Summer Time."

That depends. If they have earned a rest by hard work and diligent toil so that a rest will be of so much value that they will return to more! efficient work,-to accomplish more than they possibly could they had not taken a rest, then a vacation is the thing.

Then there always looms up the question, "Can I afford a va."

For one to receive the beneficial results which a vacation is supposed to bring, it is necessary to forget business cares and financial matters which beset us at other_times. Any person who has to run in debt for a vacation cannot be benefitted by it. For if his temperament is as it should be the worry of the obligation esting enough to advertise, it's would do more harm than good.
