CAR FOR EVERY 32

PEOPLE IN STATE

Passing the 300,000 mark a few days ago, New York State can now boast a tenth of all the automobiles in the United States and leads the world in registration. Within the last eight months, 78,000 machines have been bought by residents of this state. Paralleling the enormous increase in cars, the ranks of the chauffeurs have steadily grown until to-day there are 98,000 licensed drivers, or 22,000 more than a year ago. Motor vehicle registration so far this year totals \$2,546,487 in fees. In the United States last year license fees netted \$18,245,713, of which 90 per cent, was used for country and state roads.

New York State now has an automobile for every 32 residents. There is a car for every 37 persons in the United States and a machine to every mile of road. Massachusetts has a car for every 29 residents, Iowa one for every 16 and Alabama one for every 199, Arkansas one for every 212.

The automobile accident report reads like a record of a battle. In twenty of the larger American cities in the last eight months 1,040 persons have been killed and 8,000 injured. Probably those figures do not represent more than one-half the casualties for the country. It is suggested that there must be a general slowing down of automobiles in city and country.

Cutting down the casualties, however, is not merely a matter of putting the screws on the automobilist. It is a matter of the automobilist and the general public getting together and co-operating for safety plans.

DEMOCRATIC

MASS MEETING

A Democratic Mass Meeting will be held at The Auditorium, Saturday evening, Nov. 4th, at 8 o'clock. Hon. W. F. Starr, of New York City and Rev. L. H. Busch, of Wellsville, will be the speakers.

Auditorium, Wednesday Evening.

In producing Mark Twain's famous work, "Pudd'nhead Wilson" the Jesse L. Lasky Feature Play Company presents the first of a series of picturizations of the noted humorist's novels. "Pudd'nhead Wilson" will be followed by "Tom Sawyer," "Huckleberry Finn" and others.

"Pudd'nhead Wilson" occupies a unique place in the annals of American humorous literature. Its story—said to have been the first piece of fiction which made use of the now familiar finger-print method as a means of establishing identity—is melodramatic, romantic and suffused with a deep note of human sympathy and interest. "Pudd'nhead Wilson, the Southern lawyer, from whom the book takes its title, is a character in American literature, and his crisp sayings will live forever.

No actor of the stage or screen is so well suited to the role of "Pudd'nhead Wilson" as Theodore Roberts, America's leading screen character star. Mr. Roberts brings out the subtle humor of Wilson, who swayed a whole community by his personality during an exciting trial, finally establishing the innocence of a youth unjustly accused. There is a gripping love story through the photo play.
