## WILLIAM F. McCOMBS

President Wilson's Administration in four years has given the nation more constructive legislation than the Republican Party has had the imagination to promise in the last forty years.

President Wilson plans further constructive legislation along, safe, sane, constructive, conserving lines, and it is necessary that he should have a Democratic Congress behind him to carry this legislation into effect.

William F. McCombs's record is such as to qualify him as a worthy candidate for the United States Senate. He is a scholar and a gentleman. Educated Princeton and Harvard Universities. has practiced law in New York, manager the National campaign which resulted in the election of Woodrow Wilson as Pro ident, was Chairman of the Democre National Committee and was tendered the Ambassadorship to France. trustee of the College of the City of i York and a member of the American
