### HE FELL IN LOVE WITH HIS WIFE

It may sound like a queer title for a photoplay, but if you like a story well acted, well staged, and with popular players, you will not fail to see why and how "He Fell in Love With His Wife," at the Auditorium, Saturday evening.

This production opens with a situation that grips your interest and holds it through to the finish. Many and unexpected complications arise, but FLORENCE ROCKWELL, as Alida Armstrong gives a portrayal of charm and sweetness that will completely win you. FORREST STANLEY, as James Holcroft, is the same fine looking, manly actor that has appeared in other productions from the Pallas studios.

The book has enjoyed such a large sale that it is now one of the standard works of English fiction.

### FAMOUS ROMAN ROADS.

Public Highways as They Were During the Reign of the Caesars.

In Gibbon's "Decline and Fall of the Roman Empire" occurs the following description of the famous Roman roads:

"Under the reign of the Caesars the proper Asia alone contained 500 populous cities, enriched with all the gifts of nature and adorned with all the refinements of art.

"All these cities were connected with each other and with the capital by public highways, which, issuing from the forum of Rome, traversed Italy, pervaded the provinces and were terminated only by the frontiers of the empire. If we carefully trace the distance from the wall of Antoninus to Rome and from thence to Jerusalem it will be found that the great chain of communication, from the northwest to the southeast point of the empire, was drawn out to the length of 4,080 Roman miles.

"The public roads were accurately divided by milestones and ran in a direct line from one city to another, with very little respect for the obstacles either of nature or private property. Mountains were perforated and bold arches thrown over the broadest and most rapid streams. The middle part of the road was raised into a terrace which commanded the adjacent country, consisted of several strata of sand, gravel and cement and was paved with large stones, or in some places near the capital with granite. Such was the solid construction of the Roman highways, whose firmness has not entirely yielded to the effort of fifteen centuries.

"They united the subject of the most distant provinces by an easy and familiar intercourse, but their primary object had been to facilitate the marches of the legions, nor was any country considered as completely subdued till it had been rendered in all its parts pervious to the arms of authority of the conqueror. The advantage of receiving the earliest intelligence and of conveying their orders with celerity induced the emperors to establish throughout their extensive dominions the regular institution of posts.

"Houses were everywhere erected at the distance of only five or six miles, each of them was constantly provided with forty horses, and by the help of these relays it was easy to travel a hundred miles in a day along the Roman roads."

Voice and Art. "Why in the name of all the saints," asked the master, "have you come back to Bologna—you, the most accomplished singer in the world?"

"Because," said the pupil—"because—because, dear master, I feel that I don't yet really know how to sing."

"My son," was the reply, "that is what none of us shall ever know on this earth. In the next world there may be more time, for when we are young we have the voice, but not the art, and when we are old we have the art, but not the voice."—Exchange.

### JOHN BARRYMORE

is an Adventurous Comedy. "Nearly A King." Wednesday Evening.

"Nearly A King," one of the most novel screen comedies ever conceived, gives John Barrymore a wider field for the display of his unique comedy talents and amazing versatility than any other photoplay in which he has ever appeared, because it combines with screamingly funny situations moments of the tenderest romance and scenes of gripping, thrilling suspense. The story embraces every phase of the play-wright's art, from farce to melodrama, from sentiment to adventure. It contains a plot that is fascinating in its varied appeal, and is further distinguished by the fact that for the first time since his association with the screen, Mr. Barrymore interprets two characters simultaneously. The fact that one is an American and the other a Prince, whose romances become confused, adds to the interest. In the end, however, each marries the girl of his heart, but not until they have proceeded through the most startling and humorous series of trials and adventures possible to imagine.
