November 24, 1916

279 YEARS AGO TO-DAY

New Haven Was Purchased From the Indians by the Puritans for a Few Beads and Knives.

The day has long since passed when trinkets or weapons can purchase any territory in the United States. Land values from the Atlantic to the Pacific have soared beyond the wildest imagination of the Colonists. What will property in this town be worth 50 years from now? Think this over carefully, and at start saving without delay that your future comfort and financial status as a property owner may be assured.

We offer assistance in investments.
