

Be in earnest about your saving

Keep the thought steadily in mind that after awhile you intend to do so and so. Have a plan in life and stick to your intention. Remember that in a commercial way success is spelled like this—S-U-C-C-E-S-S. Remember that money makes money. Keep yours working. Remember that it's better for you to accept a smaller rate of interest with the assurance of safety than to take any chances. Slow and sure is the pace to start on. Nothing better for you than a savings account at this bank. Talk it over with us.

Where something of interest is to be found human beings gather. What is more important than life? The visioned church is a place where life is shown in its relations to God and Man. If our gospel is an unfolding and interpretation of the Religion of Jesus it is because His Religion interprets life in every sense. His promise to the world was the more abundant life. The promise fulfilled is His credential and seal of authority. These facts make a church to stand out in the community with a right to the attention of people. Where life is set forth in highest terms is a holy place.
