**ALL WORN OUT**

Does morning find you with a lame, stiff and aching back? Are you tired all the time—find work a burden? Have you suspected your kidneys? Andover people endorse Doan's Kidney Pills. You can rely on their statements.

Mrs. J. A. Swink, Second St. Andover, says: "I think the drinking water I used when living on a farm, is what affected my kidneys and caused lame back several years ago. At times, I felt worn out and lacked energy. The chief trouble, however, was with my kidneys and they caused me considerable annoyance. I was troubled with a burning on the bottom of my feet, too. Doan's Kidney Pills, procured from the Brundage Drug Co., cured me of the attack and I felt like a different woman."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that cured Mrs. Swink. Foster-Milburn Co., Props., Buffalo, N. Y.

**J. E. JONES' NEW PUBLICATION**

News' Washington Correspondent  
Preparing to Launch Monthly at National Capital

**"ACHIEVEMENTS IN THE WORLD'S WORK,"** with J. E. Jones as editor, is to appear early in the new year.

A prospectus, or sample specimen has been issued, and a copy of it may be seen at the News Office. Evidently "Achievements in the World's Work" will be developed along the lines of furnishing a cheery, optimistic uplift to the things that count in the world's work.

The little sample book relates a human interest story of Henry Ford, as the principal article. It tells interestingly of B. L. Bohroff, of Milwaukee, who has invented a system whereby the roll call of the House of Representatives may be completed in three minutes, thereby saving two full months of the time of Congress during a long session. "The Light of the world," traced from the earliest burning brands, and the operations of the firefly, down

to the bright electric rays of the present time, is the basis of another article. The evolution of animal and human life, reciting the disappearance of the armored specimens, with up-to-date comparisons with reference to man's life and war, furnishes another story, that is not dull—but rather breezy, informative, and refreshing. Epigrammatic paragraphs enliven the pages.

Achievements in the World's Work" will essay a style known as "popular" reading. Men and events will be treated in an intimate, familiar manner; and it is likely that human foibles will not be overlooked in the interest of pleasing the vanities of those who may be generally conceded as great.

The readers of the News have been privileged to see much of Mr. Jones' writings in these columns. The appeal is being made first to those who have felt an interest in Mr. Jones' Washington letter to become "charter member subscribers" to "Achievements in the World's Work."

Among early articles will be intimate personal sketches concerning Admiral Peary, discoverer of the North Pole; Alexander Graham Bell, inventor of the telephone; Major General Goethals, who built the Panama Canal; and General Gorgas, who has achieved much in sanitation. There will be stories of popular interest covering the trivial incidents of life, as well as industry, war and peace, told in a way that will be appreciated by those who delight in snappy stories, or solidly frozen chunks of facts.

"I believe the readers of my Washington letter will furnish 'Achievements in the World's Work' 2500 subscribers," says Mr. Jones. "I write for an audience of several thousand readers throughout the United States, and many of these have expressed a personal interest in my work. My writings as a newspaper correspondent will go on uninterruptedly, but there are things that I can say in my own publication that are not in good taste in writing for someone else's newspaper. I am asking that part of the American public with which I have been in direct touch for several

years, to back up their faith in my ability to give them a dollar's worth of literary "dope" in twelve installments."

The attached coupon should be filled out at once and handed to the editor of the News, or sent direct to Washington.
