Lost: A man's hat, between Angelica and Andover.

We wonder when Carl is going to start on his new profession.

Caution: Be sure that letters don't carry diphtheria germs!

ALL KINDS OF NUTS GROW ON 57-ACRE OHIO FARM

Practically every kind of nut that grows upon the face of the earth can be found growing on the 57-acre nut farm of O. F. Witte, near Amherst, Ohio.

On this farm, devoted exclusively to the raising of nuts, are giant chestnuts, English walnuts, Japanese walnuts, pecans, Japanese heart nuts, hickory nuts, black walnuts and numerous other kinds of nuts.

Mr. Witte has defied all laws of nature, seemingly. He grows nuts that thrive in Florida and California by cultivating and grafting them so that they withstand the hard winter months experienced in Northern Ohio.

It is the first hanging during the terms of the woman sheriff, and she said she would not display any feminine fears at performing her duty.
