

### Always Confidential

YOUR DOCTOR, your lawyer and your banker are men who know many things about your personal and private affairs — but they are duty bound to keep these things strictly secret.

You must be frank with them if they are to give you helpful service — they must understand your problems. But they must take a keen interest in your welfare and protect your interests carefully. This is the policy of our bank.

We cordially invite you to talk freely about your plans or problems.

We will always take a real interest in your welfare and help to solve your problems when we can. We will always consider it our duty to "say nothing" at any time that will reflect upon you.

Is it this kind of service you want?
