ANNUAL CLEAN-UP SALE

This is the last week of the annual clean-up sale. Our sale has met with phenomenal success. We are pleased with the confidence that the public has given us by buying so liberally and also encouraging us with words of praise on account of the genuine "Mark-Downs" in this our clean-up sale.

In some of our departments we have found an over stock and in some not enough to say much about, but we have made still further reductions in order to move these goods fast. It will pay you to look these goods over as they are real money savers for you.

THE FARMER AND THE BUSINESS MAN

(Continued From First Page.)

causation of the trouble and act in unison in finding and applying antidotes for the present and preventative measures for the future.

Statistics over many years have demonstrated strikingly that agricultural prosperity and business prosperity, and agricultural depression and business depression, run on parallel lines and are largely interdependent. Unfortunately, that truth has not been sufficiently recognized as yet by either party.

So far from counselling an attitude of antagonism toward the farmers and their representatives, I would advise that your committee endeavor to get in touch with the leading farm organizations and representatives of agriculture, with a view to establishing opportunities for comparisons of views, leading, it may be hoped, to an endeavor to agree upon wise and effective lines of policy and action so as to promote the essential and legitimate interests of agriculture in the only way in which they can be promoted lastingly.

Very truly yours, U. O. H. KAHN.

IRRIGATE YOUR EDEN Believe me if all those endearing young charms possessed by your fair spouse are going to stay, you'll have to pay for winter in the house. There's a long, long trail a-winding down to the farm yard pump, and if you make her travel it you are a selfish chump. "Drink to me only with thine eyes" is very fine to sing, but in the use of household juice it doesn't mean a thing. To heat the wood that cooks the food and then to tote the water, it is not fair to make the share of mother, wife or daughter. O, in the Suaneer river and between the Wabash banks, a lot of water runs to waste that we might store in tanks, while many wives have up and died and others wanted to because they had no pipes of lead threads among the gut, the passing years will send; don't basket them, have pipes with spigots in the end. —BOB ADAMS.
